## EXPLOSION KILLS TWO AND WOUNDS FIVE MORE

**Gang of Workmen Are Caught in Premature Blast  
in C. N. R. Cut Near Colwood—Victims  
Mutilated and Suffocated.**

**KILLED**  
Domenico Grilli,  
Eliano Salvatore.

**INJURED**  
Giuseppe Caligione,  
Antonio Magaro,  
Giovanni Manzillo,  
Carmine Rucchi,  
Leonardo Crisiano.

One man mutilated, another suffocated, and five men injured in the record of a premature explosion of a blast in the cut on the Canadian Northern Pacific railway about a quarter of a mile north of the Colwood hotel, which occurred a few minutes past 9 o'clock this morning.

All the men were Italians, and held a sub-contract from Grant, Smith & Co., sub-contractors for this portion of the line, for taking out this cut, which represents about 10,000 cubic yards. They were working on it from both ends. The whole party engaged were of the Italian race, but some of the younger men were born on Vancouver Island, and speak English.

On the side where the explosion occurred there were ten men engaged under Domenico Grilli, clearing out the dirt preparatory to taking it along to be dumped at the end near the Colwood mill creek. A narrow gauge line runs along the centre of the cut, and one man (the teamster) was attending to his horse there, while another was at the end of the dump-levering, and a third man was on the bank when the explosion occurred. This left seven men actually within the radius of the shot, and as all were killed or injured, no intelligent story of the cause of the accident has come to light yet.

The timekeeper and engineer appears to have placed the charge, at any rate Grant, Smith's representative states it was a very moderate one, being composed of four kegs of black powder, and half a dozen sticks of dynamite, and with this charge it was expected to loosen enough earth to carry on operations for several hours. The gang held the reputation of being particularly capable and careful men, and no harm was anticipated.

But a few minutes had elapsed when the men working in the adjoining cut heard a terrific explosion, the charge having apparently been prematurely

struck by some pick or shovel touching it, and before the men were able to make a run, they were covered by a mass of earth and debris about eight yards each way, which loosened from the banks, and then pitched into the cavity.

Eliano Salvatore was buried several feet deep under the fallen earth, and two hours and a half elapsed before his remains could be excavated, death having taken place from suffocation in the meantime; while the foreman, Grilli, who was standing directly over the shot was pitched headlong out of the cut into the neighboring bush, where his mutilated remains were subsequently found, much of the flesh being burnt off the limbs. Death must have been instantaneous in his case.

The other five men, Giuseppe Caligione, Antonio Magaro, Giovanni Manzillo, Carmine Rucchi and Leonardo Crisiano, were all partly buried, one or two being covered with material, but owing to the band of workers being near in the adjoining cut, help was soon forthcoming, and within fifteen minutes all were unburied, and their rough clothing, and streams of blood running from two or three of them. The ambulances from the provincial hospital, St. Joseph's hospital, and St. Joseph's hospital had meanwhile arrived and the men were removed for treatment as quickly as possible.

While this was in progress at the hotel, busy workmen, some of whom among the killed or injured, piled their spades manfully yet with tender thought lest they might injure Salvatore. As the minutes lengthened into hours all hope of saving him was abandoned. When at length the head was disclosed, death had long since claimed him.

Dr. Summ, medical officer of H. M. S. Shearwater, who had responded to the call assisted by Sick Pay Steward In-

## BRITAIN'S LARGEST WARSHIP LAUNCHED

**The King George V. Took the  
Water To-day at  
Portsmouth**

Portsmouth, Eng., Oct. 9.—Great Britain's largest and best armored battleship, King George V., was launched successfully to-day. The ship was christened by His Majesty's aunt, Princess Christian of Schleswig-Holstein.

The King George V. had been on the stocks two weeks less than the average Dreadnought, having been laid down on January 16 last. The vessel has a displacement of 23,000 tons and her principal dimensions are: length, 555 feet; beam, 89; draft, 27 1/2. The armament consists of ten 13.5 inch guns and twenty-four four-inch guns. Engines of 31,000 horsepower are expected to furnish a speed of 24 knots an hour.

**BRITISH BARQUE SINKS**

Boston, Mass., Oct. 9.—The sinking of an unknown British barquentine, said to have sailed from Bridgeton, N. S., off the entrance to the Bay of Fundy, on September 30, with all on board, was reported by Captain Goodwin of the fishing schooner Good Luck.

## BISHOP PERRIN SAYS FAREWELL

**VALEDICTORY ADDRESS  
TO LARGE CONGREGATION**

**Conservatism and Progress  
Guiding Principles of Na-  
tional and Church Life**

Christ Church cathedral was the scene yesterday of two memorable gatherings, the funeral of the late Col. Wolfenden, and the valedictory address of Bishop Perrin. The funeral of Col. Wolfenden, which was held in the afternoon, and in the evening Bishop Perrin faced a very large congregation when he entered the pulpit to preach his valedictory sermon.

The theme of his address, Conservatism and Progress, was to show the conflicting and co-operating effects of these two great principles in human life, in nation, religion, and individual alike, and in the course of his address he dealt with the danger of a rash progress in the community, the abuses of the liquor traffic, and commented on the refusal of their Church to abandon or water down its doctrines, the Cathedral site, mission work, the desecration of the Sabbath, and the better care of the children.

Selecting his text from I Corinthians 13, 58 verse: "Therefore my brethren be ye steadfast, unmovable, always abounding in the work of the Lord, forasmuch as ye know that your labor is not in vain in the Lord," his lordship said, "We have read this verse this afternoon in this church at the funeral service of one whose body was laid to rest with all the honor that could be conferred by the civil and military authorities. Col. Wolfenden was a member of the first synod that I was allowed to hold in this city, and all along from time to time I have been brought into contact with him, and admire in his character that which all of us knew. May he rest in peace, and may Almighty God, who alone can comfort and help those who are left behind to sorrow and mourn for him."

The bishop proceeded that he was not there to preach a funeral sermon, but to try to bring from the text lessons which he would learn himself, and seek to impress upon them. In that last sermon he should preach before them from that pulpit he had analyzed his feelings, he had tried to examine before Almighty God, what he had done, and to confess what he had left undone, but he had not come that evening in a sentimental mood, though he knew he had their sympathy and kindly judgment, for he trusted only in the everlasting and unchanging love and purpose of God in whom he alone put trust; but he wanted them to see from the text the two great principles of human life, upon the due proportion of which in the nation and in the church so much depended, conservatism and progress. "Therefore be ye steadfast, unmovable," that is conservatism: "always abounding in the work of the Lord," that is progress, he observed.

First let them look at it in the national life, and he did not think they could see it better than looking into the past at a nation in which both conservatism and progress were allowed to run riot. "In France," his worship went on, "in the eighteenth century, there was the king and the nobles, and the very embodiment of the conservative spirit; if the people were starving a minister would tell them that they may be fed with hay, and the end is the destruction of the monarchy—conservatism run riot—and then the French revolution, that is progress run riot—the words 'Fraternity, Equality, Liberty' carried out in caricature, in this new republic which sweeps all these old ideas away, the

(Concluded on page 11)

## NATIONALISTS WORRY BORDEN

**DEMANDS FOR CABINET  
REPRESENTATION FIRM**

**Apart From Quebec and On-  
tario New Premier is Ready  
to Announce Personnel**

Ottawa, Ont., Oct. 9.—Although Hon. R. L. Borden must report his cabinet slate to Earl Grey within a few hours the new premier is still wavering as to the final choice of his Ontario and Quebec ministers.

In Quebec the Nationalists and straight Conservatives are warring as to their representation in the cabinet. The Forget faction want T. Chase Casgrain instead of L. P. Pelletier, whom Premier Borden favors. Pelletier is regarded as practically a Nationalist representative, and if he is taken then the straight line supporters of Mr. Borden in Quebec say that Casgrain should also be given a portfolio in order to balance things up.

Moreover, the Nationalists also want W. B. Nantel taken into the ministry and a definite pledge from Mr. Borden that there will be a plebiscite on the naval question. In addition they want F. D. Monk placed at the head of the Public Works Department, thus enhancing the Nationalist influence.

Mr. Borden is still trying to reach a compromise which will not offend either faction, and a conference with the rival aspirants has been going on all morning.

In regard to Ontario there is still uncertainty as to whether Col. Hughes, Col. Wolfenden, or Mr. Doherty will be chosen as the fifth representative of the province. Otherwise the cabinet will be composed as far as forecasted in Saturday's dispatch.

Mr. Borden hopes to report to Earl Grey to-night and the new ministers will be sworn in to-morrow. Until then he is preserving strict silence. The alleged official announcement of the cabinet as sent out from Ottawa on Saturday night is without authority from the new premier, who declares that the final selection would not be definitely decided upon until to-night.

It is known, however, that the only uncertainty now is with the Ontario and Quebec representatives. The west will be represented by Hon. Robert Rogers, W. J. Roche, Senator Loughheed and Martin Burrell. The last named replaces Mr. Goodeve, who was at first thought to have the British Columbia ministry in his pocket. Mr. Goodeve will probably be replaced with a position on the proposed new western division of the Railway Commission.

The allocation of the various portfolios is not yet finally settled and will not be known until the official announcement is made. C. J. Doherty will probably be Minister of Justice, W. T. White, Minister of Finance, Hon. Robert Rogers, Minister of Interior, Hon. Frank Cochrane, Minister of Customs, F. D. Monk, Minister of Labor, Hon. J. D. Hazen, Minister of Railways, Dr. Roche, Minister of Militia, Martin Burrell, Minister of Inland Revenue and Mines, W. S. Middeboer, if chosen, Postmaster General and Senator Loughheed, Minister of Trade and Commerce.

It was hoped that Mr. Borden, who is himself a clean man, would select men of his own type for his cabinet. Experience shows that good men sometimes go wrong after they are put into harness, but when a leader deliberately chooses men for important positions whose reputations are unsavory, and who are associated in the public mind with a type of politics far from ideal, he brings himself under just criticism as a man lacking in moral stamina, and therefore one who cannot be depended upon to lay the foundations of a strong and enduring government.

Mr. Rogers is not acceptable to Saskatchewan. He is not a Saskatchewan man. The only seat which could be found for him in this province is Prince Albert, now held by James McKay, and the people of this province would much prefer McKay to Rogers if they had the opportunity to choose. Whether Mr. Borden sees it or not, the significance of Rogers as minister of the interior is that Mr. Borden's policy of turning over the lands and resources of the western provinces to provincial control will be indefinitely deferred. With Rogers in the saddle the western provinces and the lands department could be organized and utilized to splendid political advantage, and would offer him an excellent opportunity of repeating the political success of the Roblin exploitation of the last fifteen years, only on a much larger scale.

Some western Conservative papers have been intimating that there should be a commission of inquiry into the affairs of the department of the interior, with the object of finding out to what extent the people's resources have been squandered. This is a policy of delay. It means that the new government will be put off the carrying out of Mr. Borden's promise of turning over the control of the western lands to the western provinces. What is there to investigate? Frank Oliver's administration of the department of the interior has been above Tory criticism. It has been severely just. If there is anything to investigate it is Siftonian, and no one supposes for a moment that Bob Rogers would undertake to investigate Clifford Sifton's administration of the department of the interior. It is therefore absurd to think about any commission of inquiry.

There is nothing to inquire into, but there is evidently an understanding on the part of those on the inside, and the tip has been given to the western Conservative editors that a policy of delay will be followed after Bob Rogers is made minister of the interior. The people of western Canada expect Mr. Borden to implement his promises to turn the western lands and resources over to the western provinces. If he makes Bob Rogers minister of the interior it will show that his first move is one likely to obstruct the very purpose which he has declared, and which is more important than any other promise he has made to the people.

**ALBANY WON MATCH**

London, Oct. 9.—Albany and Jack Arnet, brother of the champion, scored a match to-day over the Putney-Mortlake course. Albany was first away, led after passing Hamlet Smith, five lengths and won by three lengths.

## GOVERNMENT LET NO LARGE CONTRACTS

**Hon. William Pugsley Corrects  
the Mis-statements Made  
in Conservative Press**

Montreal, Oct. 9.—Hon. Wm. Pugsley, the late minister of public works, spent yesterday at the Windsor. In regard to the letting of contracts by the outgoing government he said that as far as small contracts of his department were concerned those for which tenders had been asked previous to the elections had been awarded.

But the government had thought it best to leave such matters as the St. John harbor contract to its successors. The contract for the I. C. R. extension from Halifax eastward, as well as a small extension in Prince Edward Island had been granted. As to appointments, he declared that no appointments had been made. The statement that the outgoing administration had made a judicial appointment in Prince Edward Island resulted from a misunderstanding. All that had been done was to approve a judicial appointment of the local government.

Mr. Pugsley stated that he would practice his profession in St. John.

## NOT ACCEPTABLE IN SASKATCHEWAN

**HON. ROBERT ROGERS  
NOT OF BORDEN'S TYPE**

**Saskatoon Paper Points Out  
Wherein His Selection Will  
Prove Mistake**

Saskatoon, Sask., Oct. 9.—The Phoenix says editorially to-day: The announcement in what should be well informed Conservative circles that Hon. Robert Rogers is slated for minister of the interior, in Mr. Borden's cabinet as a minister from Saskatchewan will not be received with any large degree of satisfaction in this province, nor indeed anywhere in western Canada.

It was hoped that Mr. Borden, who is himself a clean man, would select men of his own type for his cabinet. Experience shows that good men sometimes go wrong after they are put into harness, but when a leader deliberately chooses men for important positions whose reputations are unsavory, and who are associated in the public mind with a type of politics far from ideal, he brings himself under just criticism as a man lacking in moral stamina, and therefore one who cannot be depended upon to lay the foundations of a strong and enduring government.

Mr. Rogers is not acceptable to Saskatchewan. He is not a Saskatchewan man. The only seat which could be found for him in this province is Prince Albert, now held by James McKay, and the people of this province would much prefer McKay to Rogers if they had the opportunity to choose. Whether Mr. Borden sees it or not, the significance of Rogers as minister of the interior is that Mr. Borden's policy of turning over the lands and resources of the western provinces to provincial control will be indefinitely deferred. With Rogers in the saddle the western provinces and the lands department could be organized and utilized to splendid political advantage, and would offer him an excellent opportunity of repeating the political success of the Roblin exploitation of the last fifteen years, only on a much larger scale.

Some western Conservative papers have been intimating that there should be a commission of inquiry into the affairs of the department of the interior, with the object of finding out to what extent the people's resources have been squandered. This is a policy of delay. It means that the new government will be put off the carrying out of Mr. Borden's promise of turning over the control of the western lands to the western provinces. What is there to investigate? Frank Oliver's administration of the department of the interior has been above Tory criticism. It has been severely just. If there is anything to investigate it is Siftonian, and no one supposes for a moment that Bob Rogers would undertake to investigate Clifford Sifton's administration of the department of the interior. It is therefore absurd to think about any commission of inquiry.

There is nothing to inquire into, but there is evidently an understanding on the part of those on the inside, and the tip has been given to the western Conservative editors that a policy of delay will be followed after Bob Rogers is made minister of the interior. The people of western Canada expect Mr. Borden to implement his promises to turn the western lands and resources over to the western provinces. If he makes Bob Rogers minister of the interior it will show that his first move is one likely to obstruct the very purpose which he has declared, and which is more important than any other promise he has made to the people.

**JUMPED FIVE STOREYS.**

San Francisco, Cal., Oct. 9.—H. H. Walton, an ad-writer of this city, committed suicide yesterday by jumping from a window on the fifth floor of the Chronicle building. He crashed through the skylight of an adjoining two-story structure and died twenty minutes later. Despondency caused by ill-health is believed to have led Walton to end his life.

**TRANS-MISSISSIPPI FLIGHT.**

Minneapolis, Minn., Oct. 9.—Aviator Hugh Robinson, it was announced here to-day, will start on his trans-Mississippi flight from Minneapolis to New Orleans on next Friday, October 13.

**FLYING ACROSS CONTINENT.**

Joliet, Ill., Oct. 9.—C. F. Rodgers, the aviator who is attempting to fly from New York to San Francisco, left here at 12 o'clock this morning, headed for St. Louis.

## ITALY HAS SUPPRESSED SLAVERY IN TRIPOLI

**Turkey is Reported to Be Seeking Peace and to  
Be Ready to Cede Territory Now  
Occupied.**

Rome, Oct. 9.—(Via Frontier.)—The Italian authorities at Tripoli issued a proclamation yesterday suppressing slavery. Tripoli was the only remaining port on the coast of Africa where slavery still prevailed, notwithstanding the efforts of Great Britain and France to prevent the traffic.

General Spingadi, minister of war, went to Naples to supervise the organization of troops for the expedition. Advice from Tripoli says groups of Turkish soldiers are coming into surrender. The Arabs armed at the last moment by the garrison with Mauser rifles, landed by the steamer Darna, are gradually returning to Tripoli and offering their submission. Their only condition is that the Italian command purchase their rifles for a few francs, which seems to show that not only are the Arabs—those at least in the vicinity of Tripoli—not ready to fight for Turkey, but also that variation prevails among the natives.

More than twenty thousand of these, it is said, will soon be forced by hunger to return to the town. It is known, however, the Turkish soldiers comprising the garrison are well off for supplies, but it is believed they are near to the minimum. It is possible, however, that they may go into the interior for the purpose of arousing the Senussi tribes and have them proclaim a holy war against the invaders.

The attitude of the Turkish government regarding the Italians in the Ottoman Empire is viewed with some concern, and the order of expulsion and the abolition of the capitulations, if carried into effect, may be the cause of serious complications.

It is expected that Germany, which now has the Italians in Turkey under its protection, would raise an objection to such action.

Vice-Admiral the Duke of Abruzzi left Tripoli to-day aboard the armored cruiser Veturio Pisani after having been in communication with the king and the minister of marine.

The squadron, including the armored cruisers Giuseppe Garibaldi, Francesco Ferrucci and Varese, which participated in the bombardment of Tripoli, after coaling at Agosta, sailed to-day under scaled orders.

**Turkey Seeking Peace.**  
London, Oct. 9.—Most of the war correspondents are united in the opinion

that Turkey is renewing her efforts to secure peace, but they differ as to the procedure to be followed, whether by arbitration through a European conference or by other means. According to reports from Rome, Italy, which at one time, was ready to pay Turkey a large compensation, now will pay nothing, although she would not impose a war indemnity if peace were concluded forthwith. If hostilities are prolonged, however, the reports say, Italy will insist upon a heavy indemnity. Italy reports tell of the sinking of two Turkish torpedo boats with a loss of 300 Turks at San Giovanni di Medu.

Reports are current that Said Pasha will resign and Kaimil Pasha become grand vizier. There are every indications throughout Turkish dominions of an energetic spirit in favor of a holy war, but in Constantinople the people pray constantly for peace.

According to the correspondent, the American ambassador, W. W. Rockhill, has been instructed from Washington to use his influence for peace. The ambassador will have an interview to-day with Said Pasha. Russia is joining with the United States in this action.

Turkey has sent another note to the powers, asking for intervention and offering to grant every reasonable concession to Italy.

**May Cede Tripoli.**  
Berlin, Oct. 9.—A circular note from the Turkish government, asking the powers whether they consider that the time has arrived to seek a basis for negotiations looking to peace between Turkey and Italy and under what conditions, was presented today to the German foreign office. The note contemplates the cession of Tripoli to Italy under certain conditions.

It is probable that the note from Constantinople will be discussed by the other powers before the Italian government is approached. It is thought that the foreign office that Italy may not be requested yet to negotiate.

The decision to expel Italians from Turkey, against which the representations of the German ambassador at Constantinople, Baron Marschall von Bieberstein, has not been effective, was designed chiefly, it is thought here, for effect on the coming negotiations, Turkey hoping that the threat might induce the Italians to make mediation terms.

## PORTUGUESE TROOPS DEFEAT ROYALISTS

**Invaders Are Now Entrenched  
in Rough County—Priests  
Support Monarchists**

Lisbon, Oct. 9.—The royalists after defeat at Vinhau, where they lost fifty men, entrenched themselves to-day in the rough country and are awaiting the arrival of another column under Captain Conde. It is reported that they have eight field pieces and four Maxim guns.

A party of monarchists commanded by a priest attacked an express train which was carrying troops to the north, near Monsanto. They placed an obstruction on the tracks, which was discovered by the engineer who stopped his train when it was within a few yards of the obstruction. As the train halted it was fired on. The troops responded and drove off the royalists.

Four hundred royalists, who had been reinforced with a party of two hours, are taking an active part in the organization of guerrilla bands and are leading them in the combat with uplifted crucifixes. The monarchists flags are flying over the churches at Castello, Branco and Santa Thyrso.

The government is finding difficulty in handling the cavalry and infantry in the mountainous districts.

**MACHINISTS TO STRIKE.**

Winnipeg, Man., Oct. 9.—Word was received last night from the international headquarters of machinists at Washington, and the international headquarters of the boilermakers at Kansas City calling a strike on the Grand Trunk Pacific railway for Tuesday.

It is said by the men that 60 per cent. of the trades on this railroad were locked out Friday night by the company. The other 40 per cent. will strike on Tuesday, it is said.

**OTTAWA CONTROLLER DEAD.**

Ottawa, Ont., Oct. 9.—Controller Jas. Davidson died on Saturday of acute indigestion. Deceased, who was in his fiftieth year, was one of Ottawa's prominent business men. He was a former mayor and was a member of the board of control since its inception in 1907.

## SUMMONING JURORS FOR DYNAMITING TRIAL

**Names Secret Till the Men Ap-  
peared in Los Angeles  
Courtroom To-day**

Los Angeles, Cal., Oct. 9.—One hundred and twenty-five citizens of Los Angeles county, from among whom may be called the twelve men to pass upon the guilt or innocence of John J. and James B. McNamara, in the Los Angeles dynamiting case, gathered to-day in the new courtroom of Judge Walter Bordwell.

The men constituted the first venire to be summoned as jurors in the McNamara trial which is scheduled to begin next Wednesday. They were called by Judge Bordwell to-day to enable the court to excuse those who for ordinary reasons, may be unable to act. By this means it was hoped that the work of drawing the McNamara jury would be materially lightened and better time be made when the trial proper begins.

Although court was not supposed to open until 10 o'clock, more than an hour before that time the corridors of that wing and floor of the Hall of Records building, where the McNamara trial will be held, were well filled with veniremen. The names of the veniremen were kept secret when drawn and the calling of each juror was attended by a hasty scratching of pencils as reports of opposing counsel in the coming trial jotted the name down for further reference.

**AN EXCELLENT CHOICE.**

Ottawa, Oct. 9.—H. Preston, ex-M. P., former president of the Canadian Press Association, and proprietor of the Brantford Expositor, has been appointed to represent the Canadian press at the coronation durbat at Delhi in December. The appointment was made by the Canadian government at the request of the Indian administration.

**CENSUS RETURNS.**

Ottawa, Oct. 9.—It is stated that when the census figures are made public in the course of the next few days they will show that the population of the Dominion is considerably less than 8,000,000. It was estimated that the figures would show a population of over 8,000,000, but they are likely to be disappointing to the extent of a few hundred thousand.

## BATHERS FLY IN TERROR

Santa Barbara, Cal., Oct. 9.—Scores of bathers at Plaza Del Mar beach fled in terror of their lives yesterday when a big red bull came swimming shoreward through the surf, with bloody nostrils and foaming mouth. The bathers scattered in all directions as the bull, stopping only to shake himself, charged across the sand and into the park, immediately depopulating it. The water was finally calmed the bull and he left him off.

The bull had become panic-stricken, jumped overboard from the boat which was bringing him to the mainland from his native island, and swam a mile to shore.

**HUNTED ACROSS CONTINENT.**

Washington, D. C., Oct. 9.—After a search across the continent and up to the British Columbia secret service operatives to-day captured Albert Leon, a Russian Jew and political refugee, as he was about to leave New York for South America. Leon is alleged to be the head of an extensive counterfeiting gang which has flooded the Pacific Coast with spurious ten-dollar bills during the last year.

**BRITISH NEUTRALITY.**

Malta, Oct. 9.—The Italian torpedo-boat destroyer Borea arrived here escorting a steamer with prisoners on board from Tripoli. The British officials decided to refuse the Italian vessel a supply of provisions. The prisoners included Turkish officials and the crew of a torpedo-boat destroyer, which surrendered at Tripoli.

**WAR MINISTER RESIGNS.**

Lisbon, Oct. 9.—The minister of war, General Pimenta, has resigned. The government has decided to ask President Arraiza to summon parliament in an extraordinary session to secure its consent to certain measures for the speedy trial and punishment of the conspirators in the alleged revolution.

**TELEGRAPHER DIES.**

Walla Walla, Wash., Oct. 9.—"Gus" Prag, one of the best press telegraphers in the country, and for several years in the employ of the Associated Press in this city, died to-day after an illness lasting several months. Heart trouble was the cause of his death.

**KILLED HIS SON.**

Newport, Ore., Oct. 9.—While bear hunting last evening Jerome Young climbed a tree to get sight of the game, when his gun was discharged. The bullet struck his son Frederick, who was standing nearby, inflicting injuries from which he died soon afterwards.

**ENFORCING MILK STATUTE.**  
Medical Health Officer Instructed to Carry Out Provisions of Dominion Act.

Dr. G. A. B. Hall, the medical health officer, has received instructions to stringently enforce the provisions of the federal act in regard to milk of inferior quality being supplied for consumption.

The question of whether the city has the jurisdiction under the act to take proceedings against purveyors of adulterated milk has been considered by the city solicitor and he has expressed the opinion that the regulation, which is a Dominion statute, can be enforced by the city.

Rigid tests will therefore be carried out and no doubt a number of court cases will materialize as it is a rather notorious fact that much of the milk supplied to the citizens is not of standard quality. Many complaints have been made and it is upon these that the present action is based.

—Mr. Kent, manager of the C. P. R. telegraph service of the company, reached the city this afternoon in connection with the furthering of a scheme for improving the company's service.

—The young people of Knox church, Stanley avenue, have opened their winter work with abundant signs of life and energy which augurs well for the future. On Monday last the opening session took place at the church, about sixty of the young people being present. Oswald McCoy the indefatigable president of last year, was re-elected; Alfred Atack was elected vice-president; R. Percy Howell, secretary; and Miss Isabella Morrie, treasurer. Meetings will be held every Monday evening.

## IMPRESSIVE SCENES AT MILITARY FUNERAL

Hundreds Congregate to Witness Obsequies of Late Lieut.-Col. Richard Wolfenden

The scene presented on the streets of Victoria yesterday afternoon on the occasion of the funeral of Lieut.-Colonel Richard Wolfenden will be long remembered by the hundreds of people, who lined the course taken by the cortege on its way to Christ Church cathedral. A more solemn spectacle than the long line of military men and civilians, who, to the mournful strains of the Dead March, accompanied the remains to their last resting place, would be hard to conceive.

Foremost in the parade came the Fifth regiment band, with muffled drums beating a last farewell to the much-esteemed soldier. A guard from the regiment followed, drawing in its midst the gun carriage on which, enshrouded in the national flag, reposed the mortal remains of Lieut.-Colonel Wolfenden, I. S. O., V. P., the late King's printer.

Behind this again came a carriage completely hidden within a mass of most beautiful floral pieces, tributes from innumerable friends and nuttely telling of the widespread popularity of the deceased.

The Fifth regiment, marching two abreast and headed by Lieut.-Col. Currie and other officers; Company 24 of the Imperial Veterans; the Yorkshire Society; the Typographical union, local No. 201; the Printing Pressmen's union, local No. 79, and an extremely long line of carriages formed the main body of the procession.

Robert Dinsdale, James Pearson, H. J. Martin and Mr. Hodgson represented the Yorkshire society at the funeral. Both the Typographical and the Pressmen's unions were present in a body. In addition a very large number of government employees were in attendance.

The cortege left the residence, 129 Menzies street, at between 10 o'clock and proceeded to Christ Church cathedral. A short service was conducted at the house by Rev. William Barton. At the church the procession was met by the full surpliced choir, which, during the services, sang the hymns, "Fight the Good Fight With All Thy Might," "Now the Laborer's Task is O'er" and "Jesus, Lover of My Soul," as well as the 96th psalm.

Services at the church were led by Right Rev. Bishop Perrin, who was ably assisted by Very Rev. Dean Douall, Ven. Archdeacon Scriven, Rev. William Barton and Rev. T. R. Henegance. The church was crowded to the doors with mourners, many of whom were moved to tears during the touching and impressive services.

From the church the cortege continued its way to Ross Bay cemetery, where, after the commitment services read by Ven. Archdeacon Scriven and Rev. William Barton, the remains were interred. Whilst the remains were being lowered into the grave the bugler from the Fifth Regiment blew "The Last Post."

The honorary pallbearers were: Major Dupont, Major Wilson, Major McComan, Major Hibben, Major Sargison, Capt. B. H. T. Drake, J. McR. Smith and J. A. Anderson. The active pallbearers were: Company Sergt. Major Lorimer, Sergt. G. E. Swabrick, Sergt. A. Merry, Sergt. W. Denison, Sergt. E. Thomson, Sergt. T. Ross, Sergt. W. Smith and Sergt. S. Carr.

Logging rope always in stock.  
**R. V. Winch & Co., Ltd.**

—Wm. Stewart, men's and ladies' tailor, over Terry's Drug Store, Douglas Street.

—His Honor, the Lieut.-Governor, received with sorrow the announcement of the death, on the 5th inst., of Lieut.-Colonel Richard Wolfenden, I. S. O., V. D., King's printer since the year 1863.

—Special services are to be held on Sunday the 22nd inst., in St. Paul's church, Victoria West. It will be in celebration of the church's twentieth anniversary, and at a largely attended meeting of the Ladies' Aid Society on Wednesday, all arrangements were made for an anniversary social in connection with the church celebration to be held on Monday, October 23rd.

The tri-monthly examinations for the Victoria district engineers were successfully passed by Messrs. C. J. Reed, C. H. Brooks, A. H. Hale, A. Rober and C. H. Hooper, third class certificates; Messrs. J. Ammer, B. Butenschon, T. H. Herd, Geo. Gascoigne, Thos. Murray, E. Plowright, and A. D. Birch for fourth class certificates. Examinations are to be held in Nanaimo and Cumberland shortly.

The members of No. 3 company of the Fifth Regiment are reminded that there will be an informal gathering in the men's room at the drill hall this evening, in mirth, for the purpose of meeting and congratulating Captain Harris and General Penketh on their success with the Canadian artillery team, and hearing of their travels. The regimental promotion school also starts this evening at 8 p. m., and all desirous of entering must be on parade in full uniform.

—Mr. Henry George, jr., will be heard on Wednesday evening at Institute hall, View street. His famous lecture on "Single Tax, Its Meaning and Progress," is under the auspices of the local branch of the Henry George Association. Mr. George, jr., is the distinguished son of his late distinguished father, Henry George, sr., having been the apostle of the single tax movement, so well known and world-wide. Premier McBride is to occupy the chair and introduce the speaker.

## SAILS THROUGH RAIN GALES AND BIG SEAS

Princess May in Port After Dirty Passage From Skagway—In Shelter for Hours

Drenching rains, heavy gales and big seas were encountered by the C. P. R. steamer Princess May (Capt. McLeod), which arrived in port at 7:30 o'clock last evening from Skagway. Prince Rupert and other northern points, on her way south. Owing to the dirty weather it became necessary for the vessel to drop anchor in a sheltered bay on Friday evening last. A strong southeast gale was blowing and the rain fell as though a cloud had burst. For five hours she remained at her anchorage and then proceeded on her voyage to this port.

Throughout her southbound trip the May experienced nothing but disagreeable weather. When it was not raining torrents or blowing a hurricane, fog presented itself as an additional menace to navigation. When in Milbank Sound the vessel's decks were washed clean by the big seas rolling over her bow. She was following closely behind the O. T. P. steamer Prince Rupert, and south from Prince Rupert encountered practically the same weather as the larger vessel.

When the May was in the vicinity of Swanson Bay, the passengers thought there was to be a repetition of the flood. Without the slightest warning it began to come down from the dark clouds above as though the earth had been waiting many years for a drop of water. It continued raining for several hours and when it stopped everything was dripping wet.

Southbound the Princess May brought about 200 passengers, including Governor Clarke of Alaska. Thirty-five school passengers came through to Victoria as well as a number of second cabin. The May is sailing for Skagway to-night and is carrying a great many passengers to Prince Rupert. She will also have a big cargo of general freight for her ports of call.

## PRISCO'S MARINE NEWS.

Crown of Castle Clears for Vancouver  
—Barquentine James Tuft Arrives.

San Francisco, Cal., Oct. 9. — Two large freighters of the American-Hawaiian line arrived Thursday and one departed. The steamer Virginian put in from Tacoma to finish her cargo for New York via Salina Cruz, and the Mexican sailed for the Sound to take on part cargo. The Nebraskan arrived from Salina Cruz and will return direct with a full cargo taken at this port.

The Harrison liner Crown of Castle left for Vancouver Thursday, where she will finish discharging her European cargo. She will then take on part cargo on the Sound and finish up with canned goods and barley at this port, leaving for London and Liverpool late this month.

It is understood that the British steamer Netherpark, on the Sound, is under charter to G. W. McNear to load lumber for Australia, and the British steamer Belle of Scotland, also under charter to McNear to load for Mexico. They will both make one trip from Comox to this port with coal for the Western Fuel Co.

The Norwegian steamer Admiral Borsen was fixed for a voyage of this kind a few days ago and the British steamer Bannockburn also will make a second trip with coal for the Western Fuel Co.

The barquentine James Tuft arrived Thursday from Australia with coal for J. J. Moore & Co. She is under charter to Comyn, Mackell & Co. to load lumber on the Sound for nitrate port at 48s. 9d.

The Pacific Mail liner Manchuria arrived from the Orient.

## STRIKERS CAPTURE SPECIAL POLICEMAN

Others Are Injured as a Result  
of Rioting in Railway  
Yards

San Francisco, Oct. 8.—One special policeman is missing and another is in a local hospital with a lacerated scalp and minor bruises as a result of rioting here Saturday between strikers and guards at the Mission Bay shops. A third special policeman was arrested for flourishing a revolver. Pistols were the principal weapons used in the disturbances. Each time trouble occurred as the result of union men trying to persuade strikebreakers to desert.

During a small riot late Saturday several guards were driven into the stockade after a sharp skirmish. One guard, whose name was not learned, was captured by the strikers as he was scaling the wall and rushed away from the shops. He has not been located since.

Several fights between strikers and strikebreakers occurred at Oakland during the day.

### Taking Precautions.

Chicago, Oct. 9.—Fearing possible disturbances from the strikers at the Burnside shops Wednesday when the men will be paid their September wages, the Illinois Central officials began Saturday taking every possible precaution to avert trouble. Thirteen sentry boxes have been erected at strategic points along the fence and policemen will be stationed in them. Telephone wires were strung from these points to the commanding police officer's car so that reserves can be rushed to any point at a moment's notice.

### Special Officers Rescued.

East St. Louis, Oct. 9.—Seven special officers for the Illinois Central railroad were rescued from double their number of strikers at Valley Tower, four miles south of the city limits, late Saturday, by reinforcements on a special train from this city.

The special officers refrained from employing their weapons in repulsing the men who attacked them.

The seven special officers were patrolling the company's yards when the strikers surrounded them and began throwing stones. Rather than open fire on their tormentors, they piled to a frame building and barricaded the doors. Every window in the place was broken by the stones. The strikers fled upon the approach of the rescue party. Efforts are being made to learn the identity of the strikers with a view to causing their arrest for violating the federal injunction issued at Cairo.

## CLAIMS ANARCHISTS HAD A HAND IN PLOT

Tacoma End to Los Angeles  
Dynamiting Case—Colony  
Under Suspicion

Tacoma, Oct. 9.—Following on the heels of an announcement by Burns detectives last night that the members of the Home Colony, an anarchist settlement on Lake Bay, had been implicated in the explosion of the Los Angeles Times building on October 1, 1910, came an announcement by Deputy Prosecutor G. C. Nite of Tacoma on Saturday that he has direct evidence to connect Jay Fox of the settlement with the crime.

Fox is editor of a four-page anarchist sheet printed at the Home Colony, called "Axiator." He is now under \$2,000 bonds on the charge of sedition. All of the evidence has been sent to District Attorney J. D. Fredricks, of Los Angeles county, and detectives of the Pinkerton and Burns agencies have worked on the Tacoma end of the crime for weeks.

Deputy Prosecutor Nite, who began to suspect the Home colonists after he had made a thorough investigation of their ways of living in the recent sensational "bathing" cases, said David Caplan, one of the three for whom a reward of \$10,000 was offered, had visited the Home Colony in the past few days and was in Tacoma recently. Caplan is one of the men indicted in Los Angeles, and is alleged to have been the one who was directly instrumental in setting off the dynamite charge.

According to evidence secured by the Pierce county officials the dynamite which blew up the Times building was bought in Tacoma. It was taken to San Francisco, it is alleged by Nite, directly from Tacoma by Jay Fox and J. E. Bryce, under which name James McNamara, indicted and arrested on the charge of conspiracy in the dynamite cases, was known.

### A Cuban Story.

Havana, Oct. 9.—El Mundo published on Saturday a sensational statement made, the paper says, by one Angel Carballo, regarding the dynamiting of the Los Angeles Times building. Carballo is described as a Cuban cigar maker, who formerly worked in Tampa, Florida. According to Carballo the bomb used in Los Angeles was made by an anarchist for the purpose of blowing up the citizens' committee during the last cigar makers' strike at Tampa. This plan was abandoned and the anarchist disappeared, only to return later to Tampa and inform Carballo that the bomb had been utilized to destroy the Times building.

The bomb-maker left town later, saying he was going to Peru. He is now, Carballo says, employed on the Panama canal.

Carballo sets forth that his object in making the statement is to free innocent men from suspicion.

### TELLS PITIFUL STORY.

Everett, Wash., Oct. 9.—A pitiful story is that told by Mabel Arnold, 14 years old, and married, who is a prisoner in the county jail and will probably be sent to the Chehalis training school. The girl charges that her mother forced her to marry Harry Arnold at Vancouver, B. C., because she had gone away from home to visit friends and had not kept her parents posted. She did not accompany Arnold on the trip and declares that she always hated him and does not want to live with him. To the officers at the jail she stated that she preferred the training school to her husband, and begged to be sent there rather than return to him. The complaint against the child was filed by the husband, who charged that he could not control her, and that she refused to stay at home.

### PRaises THE C. P. R.

London, Oct. 9.—The Duke of Connaught has authorized an expression of his own and the Duchess' appreciation of the efforts made by the C. P. R. for their comfort. They are particularly charmed with the Canadian fruit sent by the Canada club and by an immense bouquet from the French Canadians.

### SPARRING FOR TIME.

Los Angeles, Cal., Oct. 9.—The formal application for a change of jurists was filed in Judge Bordwell's court today by the attorneys for the McNamara, and was denied by Judge Bordwell.

Monday, the day of the beginning of the trial.

The basis for the affidavits and the formal motion for a change of trial judge was furnished, according to the McNamara attorneys, by Judge Bordwell's action in compelling John R. Harrington, one of the associate counsel for the defence, to answer questions relating to the alleged attempts at influencing witnesses to which he had refused to reply when first propounded to him in the grand jury room.

Another ground was the alleged violation by Judge Bordwell of the rule prevailing in Los Angeles county courts that all criminal cases should be assigned to one of the two criminal departments of the superior court. It was set forth in the affidavits that in insisting on having the McNamara trial assigned to his court, always a civil tribunal, Judge Bordwell displayed an eagerness which the attorneys

for the defence declared would justify an inference of bias.

### LIBERALS HOLD SEAT.

London, Oct. 7.—In the North Tyrone bye-election, T. W. Russell, Liberal, was elected with a majority of sixteen votes over E. C. Herdman, Unionist. The seat was formerly Liberal. The figures were, Russell, 3,104; Herdman, 3,088.

### BROKER ARRESTED.

Danvers, Mass., Oct. 9.—Louis F. Gavel, of the firm of Gavel & Porter, Boston bond brokers, was arrested here today on a charge of embezzlement. It is said that a large amount of money is involved.

Every man seems to think that he is warranted in doing unwarranted things.

### POLITICAL BOSS RULE.

It is apparent from the trend of events that the morning paper is no longer desirous of either directing or reflecting public opinion in the city of Victoria, but is determined to substitute a new political dictatorship for the autocracy which, it alleges, characterizes the rule of Mayor Morley. In two columns of invective which it hurled at the head of the chief magistrate yesterday there is little sound civic polity enunciated; the pith of the diatribe simply means that the Colonist has decided Mayor Morley must go. The grievances of the Colonist against the mayor are too strongly flavored with reflections upon the outcome of the recent civic investigation by the means of which Mayor Morley sought to ascertain the foundations for assertions which had been made to him with specific reference to his position and responsibility as chief magistrate of the city. Had Mayor Morley been put in possession of the inside information furnished him and upon which he caused the investigating commission to be appointed and had he then failed to take measures to ascertain the basic facts underlying such allegations, we are not astringent when we state that the citizens of Victoria would have considered him recreant to his duty. No matter how much noise the Colonist may make over the "Scotch" verdict, which was rendered in the first instance by the commission, the public of the city would have been far from content had the mayor ignored the allegations from the start. In fact he could not have done so without leaving himself open to a strong suspicion that he also was one of those whose honor and integrity had been tampered with under the processes which the investigation opened up. It must not be forgotten that the name of the mayor was, by "graft" rumors that prevailed, nor must it be forgotten that the mayor was wholly un-"Scotched" as a result of the investigation. This is a fact which has a double bearing on the situation.

We think the Times voices the real complaint of the people of the city when it says that what the public will blame the mayor for—if at all—is that the investigation did not result in the incrimination of some persons intimately connected with the paving contract which was the cause of the whole trouble. The fact that two citizens, one an alderman and the other a civic employee, have been exonerated by the council does not remove from the impressionable mind of the public the suspicion that "graft" figured in the paving contract. It may safely be said that the negligible measure of evidence produced before the commission rather tends to confirm such a suspicion than to remove it. The complaint of the public will be that the methods adopted to ascertain the truth about the award of the paving contract and the influences that were behind it were ineffective. No one will claim that there has been an allying of this prevalent suspicion by the measures so far adopted, and investigations of this kind should be sufficiently thorough and impressive to convince the people that when they were suspicious there was no ground for their fears.

We say these things without any reference to the persons whose names were before the commission and in whose integrity the council has expressed its confidence. What we complain of is the virulent attack that is made by the morning paper upon the chief magistrate and its too transparent suggestion that the mayor is, necessarily, naturally, essentially and every other way, a bad and undesirable mayor. In saying these things the Times wishes it to be distinctly understood that it is not in the confidences of Mayor Morley. Nor does it care to be. But we think it timely that it should be pointed out that the evident determination of the Colonist is to overthrow the reign of Mayorism in the city. That may or may not be a wise thing to do, but it must be apparent that if this is done every care must be taken to prevent the putting in the place of Mayor Morley a man who would be nothing more than the cats-paw of a political organization which would be as erratic, as unscrupulous and as politically dictatorial as Tammany Hall ever was. This is the danger against which the electors of Victoria will have to beware. Victoria wants no Tammany rule in the city. If the grievances of the morning paper against Mayor Morley—as stated in the Sunday Colonist—are true, and if they prove that one man rule is bad for the city, the reasonable deduction from the premises will be that civic rule will not be improved by handing

it over to the dictatorship of a boss. A dictator—wholly immovable in stubbornness—in the civic chair is vastly preferable to any man who would be but the helot of a political boss. The tempting bait of a promise that the civic minimum wage shall be raised to \$3 per day shows at a glance how coarse such rule must become once it has been put into effect by the votes of men whom it seeks to catch with bribes.

Troublesome as have been the times in Victoria's civic affairs in the past, it appears already that the real crisis in these affairs is still to be faced and the straws tell, as always, how the wind will blow.

### THE WESTERN PROSPECT.

There was sane business optimism in the remark of Sir Thomas Shaughnessy, president of the Canadian Pacific Railway, when addressing the board of directors in presenting the thirtieth annual report. Sir Thomas is not given to painting the sky with luring pictures of unlikely prosperity; his habit is rather that of a cold business analyst of the conditions on which predictions may reasonably be based. It will be gratifying, therefore, to read again his paragraph dealing with the prospective conditions in Canada west of the Great Lakes. He said:

"Very favorable business conditions exist throughout all the territory served by your lines in Canada, and there would appear to be ample justification for expecting their continuance. West of Lake Superior there is a universal spirit of confidence and buoyancy, and while there is some apprehension that real estate values are, in certain localities, on rather a speculative basis, there is room for serious error in the regard because of the business strides that are being made by almost every city and town of any importance. It will be disappointing if the immigration next year is not larger than ever before, and with our country's advantages now well known and recognized all over the world, there will appear to be no good reason why we should not have an increasing number of new comers year by year for a long time to come. If this be the case, there will be no halt in the activity and progress of the west."

If the new government carries out the policy of its predecessors with respect to immigration, there is no doubt that the drift of desirable settlers will continue to wind their way to the Canadian west and, the prosperity of the coast province being so intimately associated with the commercial prosperity of the Middle West, the outlook for the future for a long time to come is most promising.

In Ottawa hay fell two dollars per ton the day after the election. As that is what the farmers in Carleton county voted for it is hoped—and supposed—they are satisfied with their bargain.

The bill to empower municipalities in Ontario to reduce the assessment on buildings, improvements and business, and increase it on land, is to be introduced again in the legislature of that province. The Tax Reform Association will support it with petitions and endeavor to secure its passage.

A London physician is now advocating the idea that the only proper way to sleep is with the head lower than the feet, and that the pillows, instead of being under the head should be under the feet. He is only one of the many who believe that the right way to live is to turn the whole world topsy-turvy.

Mr. O. H. Hill, of New York, had his name changed to Hill because he had occasion to suspend a sign at his place of business and thought that he might not be taken seriously if he remained a popular interjection. Now Mr. Schweizer objects to possessing the name of a cheese, since he is about to be married, and the court allowed him to become Mr. Webber.

An Ottawa dispatch is going the rounds of the Tory press stating that for some Laurier reason or other—the census of Canada will fall about half a million short of the eight million mark. This would be amusing if it were not for the fact that Mr. Borden has apparently authorized it in preparation for an excuse to delay the redistribution measure which is due in the next parliament. These faithful correspondents who do the bidding of their masters must suppose the public woefully gullible.

A learned article in an exchange deals with the question of women's work in the professions and otherwise. The illuminating fact is brought out that only two per cent. of the responsible positions in newspaper work are held by women, and the inference drawn by the writer is that the Fourth Estate is not compatible to the gentler sex. Barring our own staff and a few other newspapers that we could name, we think the explanation lies in the fact that there are so many men-women engaged in the Fourth Estate that the employment of the gentler sex is rendered unnecessary. Whosoever is hereby hit let him arise and smile.

As an illustration of how widespread—almost universal—was ignorance respecting the nature and terms of the recently defeated reciprocity agreement, we reprint the following from the London Daily Mail of September

22 in its comment upon the results of the elections:

"The reciprocity agreement was drafted at Washington in November last. It provides for the abolition of American tariffs on Canadian food-stuffs and raw materials in return for the lowering of the Canadian tariff on various American products, chiefly manufactured."

It would be useless to ask any Conservative what is wrong with this item of misinformation, but any Liberal schoolboy could tell. A curious condition obtains in England in the matter of the instruction of the public about Canadian affairs.

The Times has been asked to voice the sentiments of a section of the business community on Yates street below Government respecting the location of the back stand which adorns that thoroughfare. We are not surprised that there is complaint, as Yates street, immediately below Government, is one of the least proper locations for standing horses or a collection of animals of any kind. In addition to a bank premises, to which busy resort must be had, the location has several restaurants to which at meal-time the hungry multitude must flock for food. Apart from the objectionable effluvia incident to back stands, the presence in the vicinity of numerous animals, especially during fly time, is obnoxious on account of the double attraction for these germ carriers which, after indulging themselves on odious offal, must needs visit the eating houses. We have been asked why this stand could not be moved one block further west and we do not know how to answer the question. In our opinion a more desirable location for a back stand would be at the side and rear of the Post Office building. There may be business reasons from the hackman's point of view why Yates street is preferable to the location we suggest, but we are of the opinion that the present location causes an injustice to be suffered not only by those whose business is prejudiced by the present stand but to those who must frequent restaurants for their thrice daily nourishment. The objectionable feature of the present location is that familiarity with it assuredly breeds contempt.

The Times is but little disposed to pay any attention to the present penny-a-line rantings of the morning paper, but an article in the issue of yesterday attacking the deposed Laurier administration for the manner in which it wound up the business of its office shows how unscrupulous partisan journalism can easily become. Without specifying a single instance in which the Laurier cabinet exceeded its legitimate functions, the article belabors the members of the late government for awarding contracts after the ministry had been defeated. We challenge the Colonist to name a single contract awarded for which the money had not been already voted and the House of Commons reached practical agreement with reference to the advisability of the work. The Laurier government did nothing more than clean off its slate and it ventured in no single instance upon debatable ground in the closing up of its work. It might, with perfect assurance, have awarded the contracts for the warships the tenders for which had been approved and the money voted by parliament. But because of Mr. Borden's change of front on the naval question the matter was left to be dealt with by the incoming government. That is one of the questions which the Colonist will yet admit would have been better dealt with by the Laurier ministry before its retirement. Another of these was the contract for the trans-continental terminus at St. John, which was held over for the new ministry to deal with and take responsibility for. While all Canada's Tory newspapers included, are paying tributes of respect to the Laurier administration on retirement from office, it sounds like playfulness politics for the Colonist to find an imaginary grouse the day after it laid down its responsibilities. We shall see what we shall see in respect to this splendid administration which has come into power. Perhaps the Borden administration will leave the contracts for the Victoria breakwater and the tunnel under the straits to connect Prince Edward Island with the mainland for the next administration to award.

THE COMFORT OF HOME

Depends largely on warmth. No house can be cheerful unless it is well heated. No house can be well heated unless good fuel is used. People who use our coal find it always satisfactory, because it is the cleanest, highest grade of coal mined.

# Interesting Items From the Women's Ready-to-Wear and Men's Furnishing Departments

## A Choice Selection of Distinctive Costumes in Black Velvets

We are now making an interesting showing of very handsome Black Velvet Costumes that should appeal to most women who desire distinctive and refined garments. The coats are semi-fitting and are trimmed in a variety of styles. Some have collars, cuffs and revers inlaid with moire silk and outlined with wide military braid, while others have handsome pointed sailor collars of plain velvet trimmed with braid or inlaid with silks and cloths and finished with a heavy tassel at the back. The lining is an excellent quality of Skinner satin and the skirts are beautifully finished with a panel effect back and front, also neat braid trimmings at the sides. Will you please inspect these garments? We cannot adequately describe them, and unless you see them you cannot fully appreciate their beauty. Prices \$75, \$65 and \$55.00

## Handsome Costumes at Popular Prices

This year we are stronger than ever in the Ready-to-Wear Department—especially in costumes that are priced to meet the requirements of the average woman. Practically every style and material that has won popularity this season will be found here marked at prices that will please the most expectant woman in town. There are imported tweeds in greys, browns, greens, etc., novelty suits in all-wool worsteds and a choice selection of diagonal serges and chevrons to choose from. We have your size—that's a sure thing—and there is no doubt that you will find a style and a price to please you in this range. Prices range as follows, \$20, \$25, \$30, \$35 and.....\$40.00

## Another Shipment of Handsome Silk Waists Just Arrived

Here you will find a choice selection of dainty silk Waists made of high grade chiffon taffeta silk, lustrous chiffon cloths, soft satin de chene and many other varieties of silks in almost all the popular colors of the season, and in styles that will please all. There are smart tailored models in a small check with front and shoulders trimmed with a wide fold of black taffeta piped with King's blue satin and finished with small black crocheted buttons, while others are trimmed with clusters of tucks. Price.....\$5.75 FINE NET WAISTS in ecru or white, silk lined, have kimono sleeves and fancy lace yoke, centre trimmed with Cluny lace. This is a very handsome model and represents wonderful value at.....\$3.50

## Ponetta Coats for Women at \$17.50

Ponetta cloth is a handsome, hard wearing material strongly resembling ponyskin and is meeting with much favor in all the leading fashion centres. For the woman who must have a coat at a modest price, we know of no better material than this. It is a little unusual, but distinctly refined in appearance. The coats are full length, semi-fitting, have roll collars with graceful revers or closely fitting military collars, plain tailored sleeves and are lined throughout with Italian cloth. Special, while they last.....\$17.50

## New Arrivals in the Men's Furnishings Department

## DIES FROM A BULLET WOUND THROUGH HEAD

George Smith's Body Found Saturday Evening in His Home Dying

Shot through the forehead, the wound being caused by a bullet from a .38 cal. revolver, George Smith, for several years an employee of Stewart & Tomlin and a familiar figure as drummer in the Scotch pipers band, was found late Saturday afternoon lying in a dying condition on his bed at his home, 831 Mason street, by his wife, who ran in an hysterical state to the home of Constable Hastings and secured his assistance.

The wounded man died a few minutes after the arrival of Constable Hastings. He was unconscious and no account of the tragedy was obtained from him. The coroner having been notified has ordered an inquest to be held this afternoon.

On his arrival at the home Constable Hastings found the deceased still lying, lying across the bed with his legs hanging over the side. Through his forehead was a bullet wound and by his side on the bed a revolver with one chamber discharged. Mrs. Smith was unable to suggest any reason for the shooting, being overcome at the suddenness of the event. Constable Hastings summoned the police patrol and an attempt was made to stop the flow of blood. Dr. Sinclair was called but death occurred shortly before his arrival.

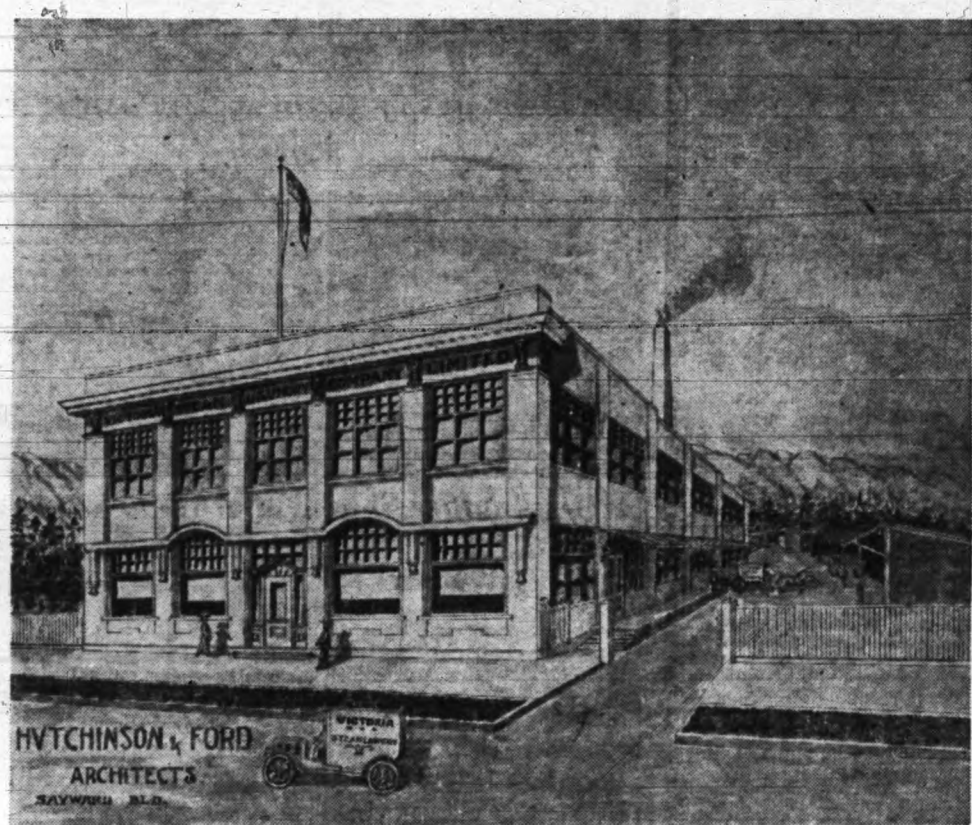

Deceased had been for about five years employed by Tomlin & Stewart, wine and spirit merchants, Yates St. He left there Saturday at 5 o'clock to get dinner and was due to return to

## NEW STEAM LAUNDRY IS CONTRACTED FOR

Building Equipped With Modern Machinery to Be Constructed on North Park

Victoria is to have the most modern and thoroughly equipped steam laundry on the coast, erected by the Victoria Steam Laundry Co., represented by T. M. Bickerdike, A. F. McCrimmon and the old proprietor of the Victoria laundry, L. D. McLean, as well as several other leading business men of the city. The beautiful new structure will be erected within the city fire limits on North Park street. Architects Hutchison and Ford have the plans at hand and they call for a modern, sanitary steam laundry, the main building occupying 62 x 128 ground space and rising two stories high. This structure will be a model in itself constructed along the most modern lines. A dining room, rest room, individual lockers, and all the necessary comforts are to be installed for the employees. "The continued increase in business has made it imperative to make this new move," Mr. Bickerdike states.

He says: "Victoria has outgrown an infant sized laundry. It is a big and prosperous city now, and requires business plants in proportion to the size of the city. Their plant has been overtaxed for two years and the result has been the turning away of a good amount of business weekly. He has gone about organizing a stock company for the purpose of financing a laundry large enough to attend to the enormous business and one that will be equalled by none on the coast. The new building will be a model in every re-

VICTORIA STEAM LAUNDRY CO.'S NEW BUILDING

members, are requested to attend. Mrs. Holden and Mrs. O. M. Jones will furnish all particulars.

—The annual meeting of the ministering circle of the King's Daughters is scheduled for Tuesday at 2.30 p. m. at the Alexandra Club.

—No. 24 company paraded at the drill hall yesterday to attend the funeral of the late Col. Wolfenden. Muffs and medals were worn, and all the sorrowing members were present to assist in burying their beloved dead.

Fire Chief Davis received a cheque for \$20, forwarded to him by A. E. Todd as a token of his appreciation of the department's active work in subduing a fire at his premises, Fort and Cook streets, on the night of the 4th inst. The fireman's fund is larger by \$20 by Mr. Todd's generosity.

work at 6 p. m. When he left the store he appeared in his usual state of health.

No reason has been assigned for the act. The deceased was a familiar figure in Victoria and was popular and a general favorite with all his friends and acquaintances. He was a member of the St. Andrew's & Caledonian Society, the members of which will attend the funeral in a body.

Smoking in bed by a guest at the Colonial hotel on Friday evening caused by fire the loss of a mattress and a few bed clothes to the amount of \$25.

—Alexandra Club ballroom will be the scene of the thirteenth annual ball to be held by the Native Sons of Victoria, November 17th. Tuesday evening a meeting of the various committees is to be held.

spect, catering to the wants of the customers and the comfort of our employees. By the first of the new year they hope to have everything in working order and have things fitted up in so complete a manner that they can handle the smallest and the largest piece of steam-work sent. Outsiders can have no idea of the magnitude of a successful laundry business. Prejudice with ignorance is fast disappearing, however, and the modern housewife relies on the laundry more than one realizes. Modern machinery makes it easy and quite customary for them to handle the finest and coarsest fabrics with equally good results. Special machinery being installed for each different evolution required in the works. The machinery planned in these modern days handles every detail of the garment with more satisfaction and with a lighter touch than the hand could—and as may be imagined a great laundry equipped with the best of services is not to be compared in a sanitary way with one operated in an ill-smelling, unsanitary basement. The new laundry will sterilize as well as wash and steam, and every article that leaves the factory will be clean and disinfected. Mr. Bickerdike has been in the laundry business many years and no one appreciates nor looks forward with greater pleasure than he to the completion of the new building—modern, clean and complete in every detail.

—The committee of the Island Arts and Craft Club desire it stated that all pictures not removed to-day will be stored at owner's expense.

—F. Napier Denison, of the meteorological office, delivered a lecture before the Natural History Society last evening. His subject was, "Abnormal Climatic Conditions of 1911," of all parts of the world.

—A meeting of the selection sub-committee of the Victoria A. D. C. is called for 5 p. m. to-day at the Balmoral. Mrs. R. H. Pooley, Mrs. Byng Hall, Captain J. E. Foulkes and the Rev. Hon. T. R. Henneage, are the selection committee, besides three executive officers. To-day's meeting is called to consider several new plays for public production.

## B. C. RUGBY UNION MET ON SATURDAY

Dates Arranged for McKechnie Cup Games—Possible Players for Southern Trip

Vancouver, Oct. 9.—At a meeting of the B. C. Rugby Union, held last Saturday, when delegates were present from Victoria, Nanaimo and Vancouver, dates were arranged for the McKechnie cup series of games. Home and home games will be played between each club both before and after Christmas, the general feeling of the meeting being that local football should be supported in this way. Dates will be commenced at the respective meetings of each local union. A meeting of delegates to select the B. C. team to visit California was afterwards held, and it was decided to select the team from the following list of players:

Locke and John, fullbacks; Nason, Vincent, Ross, Deane and McGuigan, three-quarters; Newcombe, Watkins and Luke, half backs; Sweeney, Jeffs, Miller, Heinicke, S. Gillespie, C. Brown, Straker, Acland, Simpson, Gray, McClellan, Durant, Holyroyd, Smith, Mc Dermid, forwards.

Twenty-three players will be taken south and W. J. McKay will accompany them as manager. The probable date of the departure of the team is Oct. 21. Some details still remain for adjustment with the Universities in the south.

It is expected that all players mentioned in the above list will put in all possible practice either with his own or any other club that may be out for practice, as a really fit team is wanted to represent the province.

### EASTERN FOOTBALL

McGill, 20; Ottawa, 5.  
Argonaut, 6; Seniors, 12.  
Hamilton, 8; Toronto Varsity, 18.  
Queens, 6; Ottawa, 15.

## OLD COUNTRY FOOTBALL GAMES

London, Oct. 9.—The following are results of Association football games played on Saturday:

First Division.  
Aston Villa 1, Sunderland 2.  
Bolton Wanderers 2, Woolwich Arsenal 2.  
Liverpool 1, Blackburn Rovers 2.  
Manchester United 3, Sheffield Wednesday 1.

Newcastle United 0, West Bromwich Arsenal 0.  
Notts County 2, Middlesbrough 1.  
Oldham Athletic 4, Manchester City 1.  
Preston North End 2, Bradford City 2.

Second Division.  
Sheffield United 2, Everton 1.  
Tottenham Hotspur 2, Bury 1.  
Bradford 1, Barnsley 0.  
Burnley 2, Notts Forest 0.  
Derby County 5, Glossop 0.

## LEADERS MEET IN A DOUBLE-HEADER

Record Attendance at Vernon-Portland Games in Coast League

Los Angeles, Cal., Oct. 9.—Before crowds that aggregated more than 30,000, believed to be a record attendance at Coast League baseball games, Vernon and Portland split even on yesterday's double-header, leaving the standing of the two clubs in the fight for the pennant practically unchanged.

The score in the morning game was 27 to 1, possibly another record, and the game was everything that the score indicated. Portland came back in the afternoon and despite the rooting of a crowd that overran the bleachers, topped the Tigers, 17 to 5. In the second game of the day, it was estimated that more than 20,000 fans saw the afternoon contest. In a park that provides seating capacity for many thousands less than that number, the crowd became unruly and the game was delayed 25 minutes until a riot platoon of police arrived and drove the fans into the outfield. Scores:

Morning game—R. H. E.  
Vernon ..... 27 31 1  
Portland ..... 1 8 2  
Batteries—Hitt, Gipe and Brown.  
Hasty; Koestner, Henderson and Lalonge.

Afternoon game—R. H. E.  
Vernon ..... 17 22 1  
Portland ..... 5 12 0  
Batteries—Castleton, Carson, Stanfield, Brackneridge and Brown, Hogan, Hasty; Steen and Lalonge.

### WARDS BANQUET.

Rooms on Government Street Formally opened on Saturday Evening.

If the auspicious opening of the headquarters is any augury the Wards may count on a winter season replete with blessings. To say that a spirit of jollity, mirth and good fellowship reigned supreme at the banquet on Saturday night, which marked the formal opening of the rooms on Government street, is putting it mildly. The scene was one to warm the cockles of the heart of the most pronounced misanthrope.

The young athletes gorged themselves on the dainties spread before them and then, lighting up to a man, they gave themselves over to the enjoyment of songs, speeches, musical selections and dances, ably and lustily assisting the performers when they faltered.

The room was crowded to the doors with athletes from all parts of the city, every club being represented. A. Manson, president of the Victoria and District Soccer Association, was there, as was also Alderman George Okell, the donor of the handsome silver cup for competition between the senior football teams. Both addressed the gathering, the latter in a few words expressive more of his appreciation of what was before him than of the honor of being called on for a speech. He said: "You will have to excuse me, I'm hungry." Ed. Christopher was master of ceremonies.

## ANOTHER SHAKING OF SOCCER TEAMS

Ward Seniors Swept Garrison Squad Off Their Feet on Saturday—Other Games

Another shaking up in both senior and second division leagues was the result of Saturday's football matches. The Ward seniors swept the squad from the Garrison off their feet at the North Ward park, winning by a score of 3 to 1, while the James Bays took the measure of the Sons of England at the Royal Athletic, netting two goals themselves and shutting their opponents out. In the second division the Oak Bays won from the Foresters at Beacon Hill, 3 to 2, and the Wards from the Garrison at Work Point, 3 to 0.

In a week or so now the teams will begin to find their places and the fans will be able to pick the winners with some degree of accuracy. As it stands now it looks as if the Wards had a first-class chance to annex the George Okell cup, continuously throughout the first fifteen minutes. What few rushes the Wards did make were checked before the ball entered Garrison territory. During this period Stevens slipped a rather easy one past Barnes, the Ward custodian.

Judging by the play so far the lads in blue were absolutely outclassed. The soldiers were playing down hill, but that was not enough to account for their obvious superiority. Either the Wards had been holding back and the Garrison hitting a faster gait than they were able to maintain or the former were in for a worse drubbing than the Wards received the previous Saturday.

That the former was true was seen before half time. The Garrison forwards lost their strength, their skillful play vanished, and in the same proportion the Wards took on energy, and with irresistible rushes swept the soldiers off their feet. No further scoring was done until the second half, but time and time again it seemed as if the Ward forwards would succeed in driving the ball past Beany. In direct contrast to the opening stages of the game the play now remained almost entirely in the vicinity of the Garrison defensive work of Elton and Beany that saved the soldiers from early disaster. On one occasion the ball did bulge the net, but the score was disallowed by Referee J. McLeod owing to an offence.

The story of the second half can be told in a few words. The huskies from the barracks were in, and their light opponents evidently better conditioned opponents. Beany continued his fine work, but he could not always block the hard drives aimed at him, and before time was called three goals had been registered by the visitors. Shards took on being responsible, the latter for two.

The teams were: North Ward—Goal, Barnes; full backs, Ishbister and Dakers; halves, McDonald, Brynolfson, Taylor; forwards, McCarter, Sharp, T. Peden, Young and A. Dakers. Garrison—Goal, Beany; full backs, Wiley and Elton; halves, Buxton, P. Brown, Vincent; forwards, E. Buxton, Stevens, Gale, Miller and Williamson. J. McLeod refereed, being a little lent, but otherwise satisfactory.

Sons of England vs. Bays.  
The Sons of England, the 1911 debutants into senior football ranks, were matched against the James Bays at the Royal

Athletic park on Saturday afternoon. The Sons put up a game struggle, but the greater experience of the Bays and a little hard luck sent them from the field losers by a score of 2-0.

Throughout the initial half the play was very even and neither team scored. Towards the end of the half Fisher, who had been playing a great game in the last half, was badly injured and had to retire. Having no substitute the Sons had to finish the game with ten men and this counted against them badly in the second half. Beach and Pilkington, of the Bays, both managed to beat Jasper in the concluding session.

The teams were: James Bays—Goal, Lefevre; backs, Beany and Sherriff; half backs, Shanks, Lemay, Girard; forwards, Mathews, Beach, Pilkington, Muir and Toddy. Sons of England—Goal, Jasper; backs, Beves and F. Atwell; half backs, Fisher, Waring and Green; forwards, Charles Martin, Fairly, Langton, Thackeray and A. Atwell.

G. Dobbie refereed.  
Oak Bay vs. Foresters.  
At Beacon Hill on Saturday afternoon one of the fastest games of the season was seen. The Oak Bays and the Foresters, second division teams, were the contestants, and although the opening half was slightly in favor of the latter, the former finally won out by a score of 3 to 2. The half time score was 2 to 1 in favor of the Foresters, but with a spurt in the closing minutes the Oak Bays came from behind and finished one to the good. Shanks, Warnicker and J. Baker scored for the victors, and Davis both goals for the lodgement.

Wards vs. Garrison.  
That the Garrison is unable to turn out a winning second division team has been proved on repeated occasions, and, judging by their start, this season will be no exception. The rule. They were no match for the Wards in the game at the Work Point grounds on Saturday, and were shut out, while their opponents tallied three times. The first half was very good, no score being registered, but on the resumption of play the winners wreaked havoc in the ranks of the soldier laddies.

## BASEBALL RESULTS

### AMERICAN LEAGUE

At St. Louis—R. H. E.  
St. Louis ..... 3 3 2  
Detroit ..... 1 7 0  
Batteries—Hawk and Clark; Works and Wilson.

GUNSMITH ETC. J. R. Collister 1321 GOV'T ST. PHONE 683

## SPORT NOTES

The J. B. A. A. will hold another smoken on October 19.

The Victoria West Athletic Association has decided to hold its annual dance on Monday, October 23, in the A. O. U. W. hall. The following committee has been selected to make all arrangements: J. W. Okell, J. W. Dunoon, S. Ross, F. Cherry, George Brown (secretary), P. Wilson (president).

The Rugby fifteen from the H. M. S. Algerine went down to ignominious defeat before the J. B. A. A. lads on Saturday afternoon at the Oak Bay park. The game was a farce, for before the final whistle sounded the Bays had compiled a score of 25 points, while the Croquetists could not boast of a single point. The following scored the points: Gallacher, 2 tries; Vincent, 2 tries; Ackland, 1 try; Scott, 1 try; Ogden, 1 try. Sweeney converted four of these. After the game a stiff practice of those aspiring for positions on the B. C. Rugby team, when it goes after the scalp of the southern universities, was held.

Abc Levy, backer of Matt Wells, the English holder of lightweight honors, announced last night that the ten-round fight between Wells and Wolfgang, lightweight champion of the world, which was announced set for October 28 at New York, had been called off for the present owing to the refusal of Tom Jones, Wolgan's manager, to accept a \$10,000 guarantee with a \$1,000 side bet.

Packey McFarland, of Chicago, and Grover Hayes, of Philadelphia, will fight six rounds at St. Louis, Mo., tonight before the Mozart club.

### SPLIT EVEN AT SEATTLE

All-Stars and Champions Fought It Out Before Big Crowd.

Seattle, Wash., Oct. 8.—Notwithstanding the threatening weather yesterday afternoon 2,700 fans turned out to see the Vancouver champions and the All-Stars fight it out in a double-header. The champions hammered McCreery out of the box in the first game, although he had everything that should make a pitcher successful. The score was 11 to 3.

The champs started out in the second

encounter as if they intended to make the All-Stars look cheap, but after they had a good lead, the All-Stars hammered Jimmy Clarke to the limit, which turned the tables and gave them the victory, 10 to 7. The features of the game were Leard batting out three consecutive bunts and the fielding of Dode Brinker and Ten Million. Croquet pitched cleverly in the first game, holding the All-Stars to four hits. McCreery was hammered for 9 runs and 12 hits in five innings. Charlie Schmutz pitched the last four innings, and although the champions continued their hitting, they got only a couple of runs. The scores:

First game—R. H. E.  
Vancouver ..... 11 18 1  
All-Stars ..... 3 4 1  
Batteries—Gervais and Shea; McCreery, Schmutz and Shea.  
Second game—R. H. E.  
Vancouver ..... 7 9 1  
All-Stars ..... 10 15 1  
Batteries—Clarke and Lewis; Gordon and Whaling. Called end sixth inning.

### WON AMATEUR TITLE

Toronto, Oct. 9.—After a pleasure trip to witness the beauties of Niagara Falls and to taste of the joys of being in a nearby American city, Buffalo, the Vancouver amateur lacrosse club, will leave on Thursday, bearing with them the Mann cup, emblematic of the amateur championship of the world. The first game of 2 to 2, was added to by another victory Saturday by a score over the Torontos of 2 to 1. The series ended, Vancouver 3 goals to 2. Vancouver took the field in the second struggle with a lead which made it a physical impossibility for their opponents to even up.

Before the opening of the World's Exposition to be held in Tokio, in commemoration of the crowning of the Mikado, the Japanese authorities have decided to install, at a cost of over \$17,000,000, a complete system of modern sanitary sewerage, resembling that of Berlin.

## Here's Just the Home You are Looking For The Best Little Three Room Outfit For \$88 That You Ever Laid Eyes On

Parlor—Bedroom—Dining-room—Complete and furnished in most durable style. All goods are of Weiler quality. No reason in the world why you, why everyone, should not have your home furnished, if you will but come to Weiler Bros.' store.

We can satisfy your every "Kitchen Requirement" as well.

### PARLOR

PARLOR SUITE, consisting of three handsome pieces, in Mahogany finish. Settee, Arm Chair and Reception Chair. These are upholstered in tapestry and are great value at

**\$32.00**

### BED-ROOM

BEDROOM SUITE, extremely reasonable in price consisting of Golden Oak Dresser, Golden Oak Washstand, Golden Finish Bed. A very handsome and desirable suite of furniture and great value at

**\$23.00**

### DINING-ROOM

BEAUTIFUL DINING ROOM SUITE consisting of Golden Finish Board Table to match, six Dining Chairs. This is a suite that will beautify any home and is hard to beat considering the low price of

**\$33.00**

### KITCHEN

We stock all these numberless little tools that go to make up a modern and up-to-date kitchen. Tools that shorten the "work hours" of the "housewife" and make housekeeping a pleasure. Frequent visits to our establishment are an absolute necessity if you wish to have your kitchen in keeping with the other rooms of the home. WE INVITE INSPECTION AND COMPARISON IN THIS AS WELL AS OUR OTHER DEPARTMENTS.

### 'Clock Beauty'

There is nothing adds more charm, beauty of graceful appearance to a home than a GRAND-FATHER CLOCK. This article, with all its charm of outline, and aristocratic appearance, seems the "Hall Mark" of the "Home Beautiful." We stock some magnificent specimens. Priced at \$50, \$55, \$60, \$75 and \$100.

### JARDINIERS

We stock a very large range of all kinds of Jardinieres and Stands in a large number of prices and styles.

Few things beautify the home more than a Jardiniere and every lover of a "Home Beautiful" is careful to have one or more of our beautiful specimens in evidence.

CALL AND INSPECT.

### CARVING SETS

Have you yet supplied your home with one of our high class Carving Sets? We have just received a large shipment of these goods and have priced them in a manner that will render their quick sale a certainty.

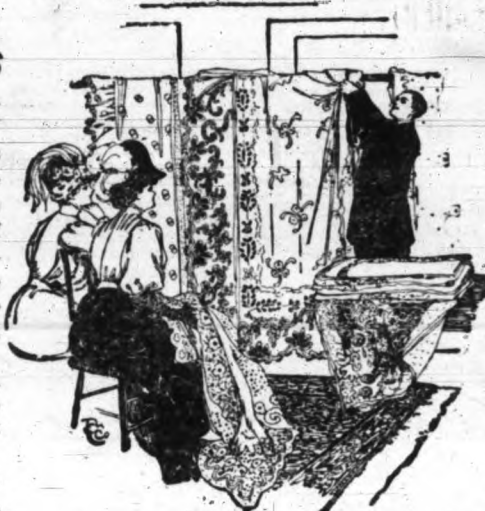

PRICED AT \$4.00 to \$12.00.

### LUXURY CHAIRS

We stock a complete and comprehensive range of LUXURY CHAIRS. The kind of chairs that make the fireside attractive and a place to linger at. If you have not already one or more of these chairs we invite an immediate visit; if you are already the proud possessor of one, then we know that another is what you need.

We have these chairs upholstered in Spanish leather in the Early English and Fumed Oak finished.

Prices range from \$35 to \$65.

### SEWING REQUISITES

The ladies will be interested to learn that we have just opened up a large shipment of beautiful sewing requisites. The charm of these new arrivals must be seen to be appreciated.

SATIN LINED WORK BASKETS, with complete equipment for the needlewoman, \$4 to ..... **\$10.00**

## HARD AND FAST ON NORTHERN MUD BANK

Pacific Coast Steamer Eureka Runs Aground Near Kiawalik

No word has been received to-day from freighter Eureka, of the Pacific Coast Steamship Company, which ran ashore near Kiawalik, Kotzebue Sound, on Saturday. The last reports stated that the vessel was still deep in the mud and that a thousand tons of her freight would have to be lightened before she could be floated. It is thought that she will be floated with the assistance of the steamers which have gone to her assistance. This adds another accident to the long list of disasters which have been suffered by the Pacific Coast Steamship Company this year.

The Eureka sailed from Seattle on September 3, under charter to the Western Alaska Steamship Company, which has been operating the steamships Luckenbach and Yucatan in the Nome service the past summer. The vessel had a cargo of nearly 3,000 tons and is in command of Capt. G. M. Johnson. She reached Nome at 8 a. m. September 18, where she discharged the greater part of her shipments.

The Eureka had shipments for Nome, Teller, Port Davis, Cape Blossom and Port Davis. Her cargo consisted of 250,000 feet of lumber, 900 tons of coal and shipments of hay, gasoline, general merchandise and provisions. The vessel made a voyage to Nome last summer for the Pacific Coast Steamship Company, sailing from Seattle June 3.

The Eureka is a steel steamship and was built at Lorain, Ohio, in 1899, by

the Cleveland Steamboat Company. She is 237.5 feet long, 42 feet beam and has a draft of 23.4.

## MAY CHARTER VESSEL TO REPLACE EMPRESS

New York Steamship Representative on Coast Admits Possibility of Deal

The presence of H. Lee Russell, superintendent engineer of the Clyde Steamship Company on the coast, is said to have some connection with the chartering of a vessel from his company to replace the Empress of China in the Orient run, and when seen yesterday on the matter he did not deny that the company he represented had two boats suitable for a charter, but what action the C. P. R. was taking he was not free to say. Probably, however, the matter would be handled through the Montreal office. His present business was, as he explained last week, in connection with the wharf accommodation on the Pacific Northwest for the Atlantic and Pacific Transportation Company, into which combine his company would be eventually absorbed.

## COMPELLED TO TAKE ANOTHER STEAMSHIP

Weir Line Charters Silver Birch for Oriental Service—To Load Supplies

Despite the fact that only recently the four steamships of the Portland & Asiatic line were added to its fleet, the Sound agents of the Weir line have announced that the big British freighter, Silver Birch, has been chartered by the company. It has been found necessary to engage this vessel owing to the great demand for tonnage to carry cargoes of wheat and flour from Puget Sound to the Orient.

The Silver Birch is a vessel of 3,635 tons gross and is one of the latest and most modern freighters turned out by British shipyards. She is to load, on her arrival on the Sound, a full cargo of supplies for the U. S. forces at Manila, leaving the Oriental fleet of the Weir line free for the extraordinary demand made by the military on this coast. There is a great deal of freight awaiting at the docks on the Sound for shipment across the pond, and when the Silver Birch gets away she will be well weighted down.

The local agents of the Bank line have received circulars from Frank Waterhouse & Co., giving the positions of the vessels operated by the company in the Oriental and Australian services. The table is as follows: Oriental service—Hercules, sailed from Comox for Moji, Dainy and Tokyo, September 7; Kumerie, at Hongkong; Lucerne, at Manila; Orter, arrived Seattle from Portland via Comox, October 7; Silver Birch, to load on Puget Sound for Manila last half November; Strathlyon, sailed Seattle for Shanghai and Hongkong, October 3; Suveric, at Vancouver; Rynga, arrived at Portland October 1.

Australian service—Boverie, arrived Auckland October 6; Christian Bors, arrived San Francisco September 23, to load at Eureka and Puget Sound for Sydney, N. S. W.; Henrik Ibsen, sailed from Astoria, Ore., for Australia, September 3; Queen Amelia, sailed San Francisco for Australia, September 3; Strathdale, arrived Port Blakely October 7.

Tatoosh—Thick; wind east, 30 miles; 29.58; 51; sea rough.  
Pachena—Rain; wind east, strong; 29.54; 54; heavy swell.  
Estevan—Overcast; wind N. W., light; 29.54; 47; sea moderate; spoke, Igaba Maru at 11.40 p. m., lat 48.36 north, long 144.32 west; Kamakura Maru at 12.00 p. m., lat 49.35 north, long 139.45, 200 miles from Estevan.  
Triangle—Cloudy; wind S. E., light; 29.42; 47; heavy swell. Spoke tug, Lorne at 6 a. m., off Pine Island.  
Ikeda—Overcast; wind S. E., light; 29.50; 48; heavy swell.  
Prince Rupert—Overcast; calm; 29.52; 49; sea moderate; off, Princess Beatrice at 7 p. m.; spoke Chicago at 5 a. m. off Rose Spit.  
Dead Tree Point—Cloudy; calm; sea smooth.

## TO PIPE MOLASSES.

San Francisco, Cal., Oct. 9.—Molasses pipelines, delightful to young imaginations, appear to be the next development in the sugar business. Advice received from Honolulu reports that a big steamship line is to convert one of its fleet into a molasses tank steamer, much like an oil tanker and will follow suit with others. The work on the steamer will be done at Seattle.

## MEETS HEAVY GALE IN MILBANK SOUND

PRINCE RUPERT BATTERED ABOUT BY MONSTER SEAS

Worst Storm Ever Encountered by Big Coaster—Wind Blew Sixty Miles an Hour

Battered about in Milbank Sound for several hours on Friday night by a gale blowing at a velocity of 60 miles an hour, the Grand Trunk Pacific steamer Prince Rupert (Capt. Barney Johnson), which arrived in port yesterday morning, weathered one of the severest storms she has encountered since entering the coasting service. The wind was from the southeast and it howled and whistled about the ship as she forced her way southward toward Prince Rupert.

Big seas rolling right in from the broad Pacific churned Milbank Sound into turbulent rage. The Rupert poked her nose into the monster waves and flooded her decks continually. At times her prow was smothered in the seas and as she rose on the next comb of waves could be seen on her forward deck. The rolling and pitching motion of the big steamer, needless to say, made things most unpleasant for those aboard her and very few passengers of the 9 o'clock supper on Friday evening.

Officers aboard the steamer state that the trip just completed by the Rupert was the worst she has ever experienced on this coast. The speed of the steamer was slackened considerably when she was being tossed about by the storm as she forced her way through the choppy seas. Entering Queen Charlotte Sound the Rupert again ran into some heavy weather, encountering another southeast gale. However, did not blow with such hurricane force as the one in Milbank sound and the ship was able to cross this open piece of water without slowing up. This is the first rough weather that has been reported by any of the coasting fleet this season and no doubt the winter weather is beginning to settle over the coast.

Many passengers came south on the G. T. P. steamer from Rupert, including 120 salmon and 94 second class. Among the former were the following: J. R. Watt, Miss Stevens, Miss McPherson, J. R. Nason, H. Walker, W. Saunders, T. D. Davidson, T. Steadham, E. Kennedy, A. M. Stewart, A. H. Vickers, A. Ross, J. P. Cade and S. Collier. Promptly on time the Rupert left port again this morning at 10 o'clock for the north carrying twenty passengers from Seattle and about an equal number from here. Among the local passengers were the members of the Williams Stock Company, who are going to Rupert to perform for several weeks. They have just completed a very successful stay in Victoria and are going north to entertain the people of the G. T. P. terminal. Those who left were as follows: Samuel Grant, Mr. and Mrs. Williams, Mr. and Mrs. Van Dyke, Miss Pinney Mulhally, Mulhally, J. Angus, Mrs. Alice Markham and Miss Phyllis Markham, who are en route to Massett from San Francisco, and Messrs. Cyrille, Sweetman, Alden and Horne.

A large amount of freight went north on the Rupert, she having loaded nearly one hundred and fifty tons at this port and Seattle.

## SOUND SALMON PACK.

Cannery State Season Has Been Best Yet—Value Near Seven Millions.

Seattle, Oct. 9.—The actual pack of canned salmon on Puget Sound up to September 26 was 1,276,923 cases. This is the largest pack of salmon ever put up in a year when the sockeyes have not run in large numbers. The pack of pink salmon is more than twice the size of the next largest pack on record, no less than 1,013,184 cases of this kind of fish, having been packed.

These totals, which are the first definite reports made public this year in regard to the Puget Sound salmon pack were announced to-day by the Puget Sound Cannery Association.

The total value of the 1,276,923 cases of salmon packed up to September 26 was \$5,786,256. Packers estimate that the fish to be packed during the fall months will be worth approximately an additional \$1,000,000.

## HERE SIXTEEN DAYS OUT FROM YOKOHAMA

Suveric Reaches Port After Fair Trip—Little Cargo for This Port

Sixteen days out from Yokohama the big Weir steamship Suveric, Capt. Cowney, arrived at the outer docks about 3 o'clock yesterday afternoon and after discharging the local freight proceeded about three hours later to Vancouver to unload her silk shipment. The officers aboard the Suveric report having had a fair passage across the Pacific, encountering a little rough weather off the Japanese coast and considerable fog when nearing the coast of Vancouver Island.

Although the Bank line in the past have always brought good cargoes to Victoria, the Suveric this trip had but fifty tons to discharge here. She had a full list of general freight for Vancouver, Portland and Sound Ports, including a large shipment of hemp from Manila, rice, sugar, sulphur, furniture, various, porcelain and other Oriental products. The cargo for this port consisted of a small consignment of rice, together with some sugar. Her silk shipment of 50 bales was valued at thirty thousand dollars.

Many passengers were brought from Oriental ports by the Suveric. Four European passengers disembarked here together with 65 Chinese, several of whom had to part with \$500 before they were permitted to pass through the port of fair Victoria. There were also many steerage passengers bound for Vancouver, a large number returning from a visit to the Flowery Kingdom.

The Suveric when she leaves the Sound in about a month's time on her return to the Orient will carry a full cargo, having been engaged to load an enormous amount of wheat and flour. Considerable of this will be taken on at Portland, while Tacoma and Seattle mills will also help to fill her holds. She will also have a heavy consignment of machinery.

## MARINE NOTES

The Norwegian steamer Arcturion of the Grace line, is reported arriving at Puget on Thursday from Tacoma.

Bound for Guaymas, Mexico, with lumber cargo, the schooner Fred E. Sander sailed from Tacoma Saturday afternoon.

The Russian barque Ocean, the last of the 1911 grain fleet from the Columbia river, has arrived at Dublin after a passage of 163 days.

With wheat from Tacoma for Europe, the British steamer Harpallion, is reported at Comox, taking bunker coal preparatory to leaving the Sound.

With salmon cargo from the Klaskan cannery on Prince of Wales Island, the steamship Santa Ana reached Seattle this morning.

The steamship Montana, of the Pacific Coast Steamship Company, left the Sound Saturday with a coal cargo for San Francisco.

With heavy shipments from Seattle and Puget Sound ports, the Osaka Shosen Kaisha liner Chicago Maru is reported arriving at Hongkong.

En route from Port Gamble for San Francisco, the schooner Spokane anchored at Neah Bay Saturday to await more favorable weather for passage out to sea.

The cod fishing schooner Alice, which put in at Anacortes after her season's work in the north, arrived at San Francisco Saturday, where she will discharge her cargo.

The Japanese steamer Seattle Maru of the Osaka Shosen Kaisha line, returned to Tacoma this morning from Seattle. She will remain there until Saturday, when she will leave for the Orient with a capacity cargo of general freight and flour.

The British ship Dunmore, which left the Sound with lumber May 5, for Lorenzo Marques is reported arriving at her destination after a passage of 153 days. She will proceed to Newcastle, N. S. W., to load coal for San Francisco.

Announcement was made Saturday by the Humboldt Steamship Company that about November 1 the service to and from Prince Rupert will be resumed. The Humboldt will call at that port on both her northbound and southbound voyages. The vessels left yesterday morning on her northern trip.

## UNUSUAL VALUE IS OFFERED IN MONTEREY PLACE ADDITION

There is no question as to the good values of lots in Monterey Place Addition. Lots immediately adjoining this property are held at a much higher figure and is exactly the same kind of garden property. There is a big opportunity for you in this desirable subdivision whether you wish to build now or not. Values will increase rapidly here, owing to the nature of improvements. Street grading has already started and will be rushed to completion. Monterey Place Addition is also in line for all other improvements, such as sewers, water, telephones, electric lights, etc. A good class of homes has already started in this subdivision. There is a building restriction of \$2,000, which will eliminate shacks, and yet impose no great hardship on any one. Only a few of these lots are left and they will go quickly.

BETTER CHOOSE YOUR LOT TO-DAY

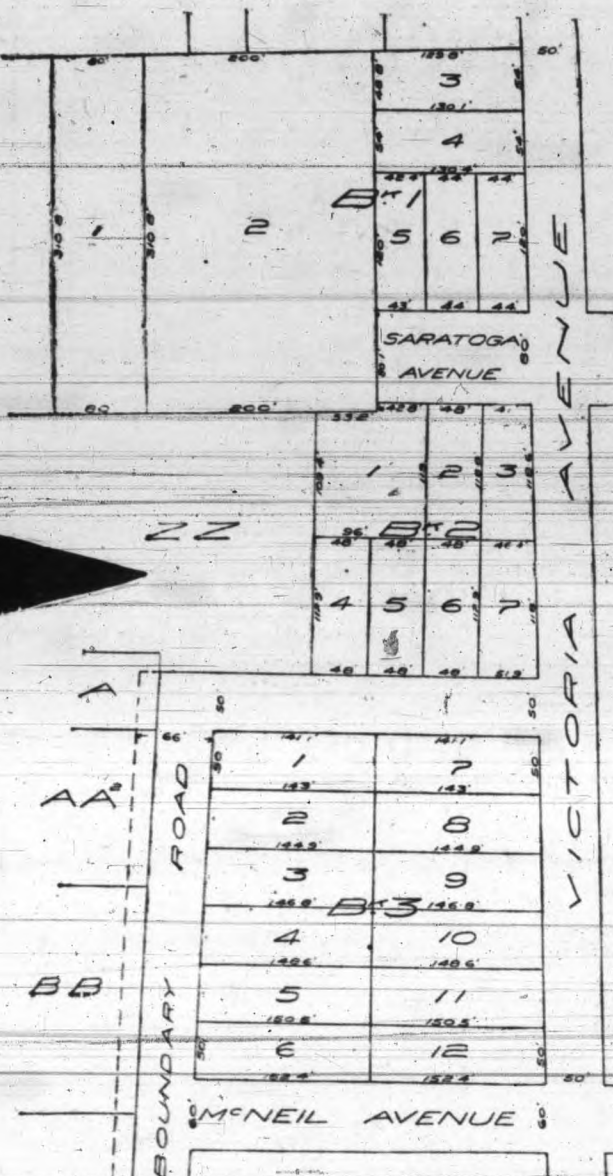

**Price from \$650 to \$800**  
**Terms 1-4 Cash, 6, 12, 18, 24, 30 Months**

**Island Investment Company, Ltd.**

SAYWARD BLOCK, PHONE 1494

CUT OUT THIS PLAN and take a little trip to Monterey today. You will enjoy it. Take Oak Bay car to Monterey avenue, walk south to Saratoga, walk along Saratoga to Victoria where the street grading is being done. You are then at Monterey Place Addition. The place worth while

**This Is Your  
Last Chance  
To Get Lots  
in Monterey  
at First Prices**

NOTE THE SIZE OF THESE LOTS, when you are out, then just look at the soil also. It is very suitable for garden purposes. YOU WILL LIKE THESE LOTS.

### PEOPLE TO DECIDE CIVIC CENTRE SITE

**Council Adopts Report Favoring  
Location on Pandora  
Ave. Above Chambers**

Sites for a civic centre for the city of Victoria are still in order although the city council has in a measure committed itself to a location on Pandora avenue. The committee of the council appointed to act in conjunction with the Architects' Association with a view to selecting the best site on that particular thoroughfare submitted its report to the council at the last meeting when it was found that yet another site near Chambers street had met with the favor of the adjudicators. The council as a whole, after reading the report and hearing the various arguments rehearsed, decided to approve of the report and submit the plan to the ratifiers. There was a feeling that all the sites should be submitted to the people but the other course was deemed the more expedient. The report follows:

"We, your special committee, appointed to select a site for a new civic centre and city buildings on upper Pandora avenue, beg leave to report as follows:

"We have carefully investigated numerous plans and gone over the actual sites, and after duly weighing the values of the different schemes and the estimates of costs and the results we are of the opinion that the best interests of the city will be served by expropriating the whole of the block surrounded by Pandora avenue, Chambers street, Camosun and Rudlin avenues, also 120 feet in depth, extending the full length of the block facing and to the north of Pandora between Chambers and Camosun, except that portion now owned by the city waterworks department, which will need to be credited with its value; also a strip 120 feet deep facing and to the south of Rudlin avenue, between Chambers and Camosun, the whole expropriation representing an estimated expenditure (including credit to the waterworks department) of \$150,000.

"The plan attached to this report is a suggestion from the committee, what is, in the committee's opinion, the best method of treating the expropriated properties and the carrying through of the thoroughfares, the committee further suggesting that to make the site perfect it will be essential to grade down the approach to the site on Pandora from the west and that portion of Pandora which passes through the site to a more uniform grade between Chambers street and Camosun, if possible, raising the grade of Camosun to carry the uniform grade through to Fernwood road, also to grade off the knoll between Pandora avenue and

Rudlin street to a uniform grade, using the material excavated for leveling up the south side of the site, and raising the level of Camosun street and adjacent property, the rock excavated to be used in building and embellishment of the grounds.

"Your committee further suggests the enormous advantage that would accrue to this section of the city and to Linden avenue by the continuation of Rudlin avenue to a point facing the proposed buildings.

"In making this selection your committee is well aware that the site from the present viewpoint is somewhat further from the present centre of the business district than would appear good policy, but your committee in dealing with this question are more impressed with the absolute necessity of dealing with it from the standpoint of the certain expansion of the city, which practically by the time of the new city buildings will bring this site as much in the business centre as in Blanchard street at the present time, and while we are aware that in dealing with a monumental structure and the location which will likely be for all time the question of a few thousands dollars more or less of cost, should not influence the committee, the site chosen as compared with the site formerly suggested between Cook and Vancouver, represents a further saving in cost of \$245,000 after allowing some \$50,000 for the grading and preparation of the proposed site, thus entailing an additional amount to be raised for the new buildings of not to exceed \$300,000 out of the proposed total cost of \$750,000 for the building. The remaining \$250,000 and the sum necessary for expropriation of the new site being covered by the disposal of the city hall and market site properties, with the exception of the original fire hall site in the market block.

"Your committee is unanimous in the opinion that in adopting this site and plan the city of Victoria will obtain as fine a site from every standpoint of utility and grandeur of effect and surroundings as could be found in any city on this continent, and if the new city buildings are designed and constructed in keeping with the situation, Victoria will have added to its city an asset to be justly proud of for all future time.

"Still another advantage in adopting this site is that it will not entail interfering with the present lines of Pandora avenue from Douglas to Chambers, except as to the necessary widening from Douglas to Quadra, which should be made 160 feet; it will be a fatal stroke of policy to allow it to remain of any less width. Also it will leave intact a noble space, such as no city can afford to lose, which, if treated correctly, will make a perfect approach to the group of buildings at its head.

"Although the members of the committee representing the Association of Architects still think that the site suggested by the association is more favorable to them from their points of view, but inasmuch as that particular site has not been selected by the council, they have come to the con-

clusions embodied in the foregoing report. At the same time they request the communication between the Association of Architects and the city council to be published with this report."

#### SCHOOL BY-LAW PASSED.

Ratepayers Endorse By-law for Purchase of Two School Sites in Oak Bay.

The Oak Bay school by-law, authorizing the purchase of two school sites, 2.1-10 acres off Cadboro Bay road and 2.1-4 acres on Monterey avenue, for the sum of \$20,000, was passed very decisively by the ratepayers in the municipality on Saturday. The vote was as follows:

For ..... 45  
Against ..... 4  
Total ..... 49  
Possible vote, 944.

### Women Much Sought After

The brightest and much sought after women in all walks of life use Parisian Sage, the great hair tonic, because they know it promotes rich, luxuriant hair growth.

It is the duty and privilege of every woman to look beautiful and attractive. A wise woman has ordered this, but you cannot preserve and maintain your beauty if you neglect your hair.

No toilet is complete without Parisian Sage. No mother who wishes her girls and boys to preserve their hair would allow them to go longer without using this wonderful hair dressing, and the wife who thinks of her husband's future, will insist upon him preserving his youthful appearance by a timely use of Parisian Sage.

Parisian Sage is the favorite hair tonic of refined people, and since its introduction it has met with wonderful success.

If you want beautiful, lustrous hair that will be the envy of your friends, go to the drug store and get a bottle of Parisian Sage to-day. If you are not satisfied that Parisian Sage is the most delightful and refreshing hair tonic you ever used, take it back and get your money.

Parisian Sage is guaranteed to cure dandruff, and stop falling hair, 50 cents a large bottle at all druggists or by mail, charges prepaid from the Gironx Manufacturing Co., Port Erie, Ont. The girl with the Auburn Hair is on each package of Parisian Sage.

There is almost twice as much life insurance in force to-day as there was ten years ago. The assets of the companies have more than doubled in the same time.

### ARTS AND CRAFTS END WITH CONCERT

**Brilliant Musical Function Completes Island Exhibition of  
Art and Craftsmanship**

A delighted audience enjoyed the musical function arranged by Mrs. MacLure to so fittingly close the successful three-day exhibition held by the Island Exhibition Society at the Alexandra hall room. The audience, both large and appreciative, enjoyed a decided musical treat. The acoustic qualities of the dainty ball room are quite as good as can be found, and that the room will serve the proper purpose for all artistic functions is assured. Madame Sheldon was heard in song from a superbly melodious throat. Her warm, rich contralto, heard to such advantage in her various solos, still the listeners and filled their hearts with responsive emotion. For lighter work, Madame first held her audience with two charming French ballads by Ronald Hayn. In the Roman scene from Cavalleria Rusticana her range of tone and greater dramatic qualities were taxed, and to a vigorous encore Harriett Hare's exquisite Boat Song fell upon the ears of her hushed hearers. Mrs. Pennington Goddard recited to music in a most flawless manner the old favorite, "Wind in the Willows," and Guy d'Hardelot's poetic "Old Romance," a most appropriate selection, rendered as Mrs. Goddard renders all her dramatic gifts, with the picturesque personality and the air of charm and grace quite her own.

Miss Irene Long, L. R. C. M., with faultless phrasing and superb technique, interpreted Chopin in a wonderful manner. Debussy's "Arabesque" was another conception admirably and brilliantly played. Miss Long is a pianiste of no little merit.

Mrs. Gibson accompanied the vocal numbers in a feeling manner, and the programme was brought to a close by two songs, "Angels Guard Thee" and "Because," sung by Mr. Waddington and Mrs. Hinton. The following was the complete programme:

Pianoforte Solo—  
(a) Magic Lantern Series 4 .... Goddard  
(b) Arabesque ..... Debussy  
Song—Allah Be With Us .....  
Mrs. Hinton.  
Two Recitations—  
(a) Mon Petit Coeur .....  
(b) An Old Romance .....  
Mrs. G. Pennington Goddard.  
Songs—  
(a) Chanson d'Antoine .....  
(b) L'Heure Exquise ..... Ronald Hayn  
(c) Romance and Scena (Cavalleria Rusticana) .....  
Mrs. Sheldon.  
Pianoforte Solo—  
(a) Prelude (No. 15) ..... Chopin  
(b) Polonaise (A Flat) ..... Chopin  
Song—Selected .....  
Mr. Codd.

Observations taken 5 a. m., noon and 5 p. m., Saturday:  
Temperature..... 67  
Highest ..... 67  
Lowest ..... 48  
Average ..... 51  
Rain, trace.  
Bright sunshine, 10 hours 12 minutes.  
General state of weather, fair.  
Observations taken 5 a. m., noon and 5 p. m., Sunday:

Temperature..... 61  
Highest ..... 61  
Lowest ..... 48  
Average ..... 53  
Bright sunshine, 2 hours 39 minutes.  
General state of weather, partly cloudy.

#### CONTRACTS BEING SIGNED.

Mayor Morley Resumes Granting Signature to Paying Contractors for C. M. R. Co.

Now that the investigation into the manner in which the Canadian Mineral Rubber Company obtained the great paying contract for the city of Victoria is over and no one has been found guilty of either fraud or graft, the mayor has removed his temporary ban from the head of the paying concern and resumed granting it the favor of his signature to the supplementary contract which have since been granted it.

The streets included in these latest contracts are: Olympia, from Battery to Dallas road; Dallas avenue, from Dallas road to Battery; Luxton, from Boyd easterly; Beacon, from the park to St. Andrew's; Howe, from May to Oxford; Finlayson, from Quadra to Cook; Manor, from Craigdarrock to

#### HOME DESTROYED.

Wheeling, W. Va., Oct. 8.—The Catholic Home of the Good Shepherd at Edinboro, near this city, was entirely destroyed by fire that started at 2 o'clock Sunday morning. One of the 20 girl inmates of the home awoke and detected the odor of smoke. She aroused one of the sisters in charge, and the children were led from the burning building to a nearby hillside. None were injured, but many were in scanty attire. The loss is between \$5,000 and \$50,000.

## Neilson's

### The Chocolates that are Different

If chocolates are made right in the first place, they will be delicious for a year or more. We prove it with Neilson's Chocolates.

It is not a question of freshness—but of proper materials, properly prepared.

Neilson's Chocolates are made of pure cane sugar, rich cream, real fresh fruit flavors—and coated with the finest chocolate in the world.

Neilson's chocolate experts know how to really create new combinations—new blends of flavors—new delights in chocolates unthought of before.

Neilson's Chocolates are different—the most deliciously delectable confections that ever delighted the discriminating taste of candy-lovers.

All these chocolates have the "Extreme Split Dip"—an exclusive novelty that Neilson's created for these Chocolates de Luxe. And the Neilson method of packing them insures these chocolates reaching you in faultless condition.

Ask your dealer for "Chocolates des Aristocrates," "Italian Chocolates" or "Original Fruit Sandwiches." (These are only four of the 33 different varieties that Neilson's make). We want you just to give them a trial and if we have no agency in your vicinity send us \$1.00 and we will make you up a special assortment of 1 lb. of the most delicious chocolates you ever tasted.

WM. NEILSON LIMITED, TORONTO.

## There's a Woman In It

In 99 cases out of every hundred a man buys real estate for the sake of a woman. It is "wife" or "sweetheart" behind it all.

Of course he figures that he will make money—but he isn't making it for himself alone. What a miserably selfish being he would be if it was only for himself he was saving and planning. No—dollars to doughnuts "there's a woman in it"—somewhere.

How about you?

Aren't you planning for a nice little home of your own some day? You have it in your mind—a wide veranda; inside a cosy, open fire-place, book shelves, casement window, fruit trees and flowers in the garden, and a trim piece of lawn.

NOW is the best time to select your lot—pay for it as you can spare the money—then later build the home you want.

## GORGE VIEW PARK

Would suit you exactly. You can get a large lot with a fine view of the Gorge and surrounding country. The water is piped up the principal street. You will have good neighbors. Building restrictions call for not less than a \$2,500 house—and the terms are

**\$100 Cash and Balance over Four Years**

Prices are now lower than they will ever be again. After October 15th every unsold lot will be advanced \$50 EACH.

You make money by buying now. Don't delay—come in and get our map and price list. We will be pleased to run you out in the auto to see

**Gorge View Park**

## STEEL RAILS FORM BELT ROUND ISLAND

E. & N. Through Alberni Goes to Campbell's River and Quatsino

A belt of steel round the top of the island covering the east and west sides and connecting at a point on the Alberni canal is the ultimate outcome of railway plans of the C. P. R. in regard to Vancouver Island and the reason for surveyors having been kept in the field so many years and always going further ahead and west and north.

With the Alberni line practically complete and trains due to take freight and passengers in to Old and New Alberni next month, the construction branch of the E. & N. offices has placed an eye over familiar surveys and located on a branch to Campbell river from McBride Junction while surveyors are looking for a pathway to Quatsino.

The terminus of the Campbell's river line will never be found permanently. Eventually there will be the belt of steel round the island, but temporarily the stopping point will be Campbell's River, while surveyors and track clearers are opening a way into the Buttle's Lake country and along the coast to Union Bay.

Meantime 32 miles of railroad work are being proceeded with, and the Cowichan Lake road is the first that will be completed. Another year will say the engineers of the E. & N. railway, make a wonderful difference in the penetration into the fastnesses and density of the island forests. The belt of steel is a fact planned and steadily being forged ahead. One year must see the trains running into Union Bay.

BUT WAS IT A MISTAKE?

To the Editor:—Having flown to the hills we know not of, there is breathing time to look back upon the career of that grand old skipper who has sailed Canada for so many years through storm and shine and made her what she is to-day—the admiration of the world.

Had he gone to the country upon his merits alone, without slogan or battle cry, there would have been no sentimentalizing over "empty chairs," etc.

He made the mistake of his life in picking up that thing—tinsel, when properly applied) which exploded and wrecked his party, and supplied a formidable weapon to his opponents, out of whom he could have, otherwise, easily knocked the stuffing at the polls. If a "slogan" was necessary, it should have been "who forged, aided, abetted and condoned." To which the Conservatives would not have dared to reply. But I fancy that would not do for the "old man" who fancies a "rare good fight in the open" like Sir Charles Bessford and all his countrymen. "CONDOL."

### MOTORS AND MOTORISTS.

To the Editor:—I wish to extend my sympathies to the motorist who accidentally hit the boy on Rockland avenue on Thursday morning. The Times says that "it is questionable whether any other city has to exercise the same stringency and that still the roguish-eyed fiends of the highway break loose occasionally to remind the world of their untamable spirit and their apparently insatiable thirst for victims." Now I resent any newspaper lending itself to calling peaceable, law-abiding motorists by such vivid damning names. It is almost an impossibility not to hit pedestrians anywhere on any street in Victoria. They seem to think the middle of the road is the place to saunter and with hands thrust deep in their pockets and heads bent so that they shall not be annoyed by the horns of an oncoming car, they choose by preference the middle of Government or Douglas street and the centre of a block to go to sleep on. Lately the police have begun to hold little receptions at the intersections of the streets and besides rounding the man with the club you have to avoid all sauntering out and sauntering back to exchange pleasantries with His Majesty.

On the same morning on which the lad was struck I was motoring along Humboldt street. As you come to Vancouver you cannot see what is around the corner (thanks to the high fence). I sounded my horn and kept to the left of the road. Around the corner on the wrong side of the road came a boy coasting at full speed on a wheel. The sight of me so unnerved him that he wobbled and swerved. He didn't know whether to try and make his side of the road, and only recovered himself in the nick of time. Had he fallen the wheels of my car must have hit him and the Times would have written up an article about the foolishness of letting women drive motors.

Now I very seldom see a motor on the wrong side of the road. I have never failed to see one motor stop and help another out of a difficulty. I have come across only two road hogs who refused to let my motor pass when I wished to drive faster than they were going and I am fully convinced that if the police would turn their attention from the poor much abused motorist to keeping the general public off the highways excepting at crossings; to seeing that the drivers of trucks, drays and all vehicles were fined who were on the wrong side of the road; to making it compulsory for everything on wheels to turn a corner widely and fine them if they didn't there would be only very rarely an accident to chronicle. And we, the motorists, would help them. We are called incorrigible, we are branded with criminals, we are not allowed to plead our own cases, our oaths go for naught as against the statements very often of men who only make a guess at the

speed we are going and judge by the amount of dust we cover them with. Let the policeman see that we get fair play. And we on our part will do all we can to properly regulate traffic; to make our city an up-to-date business-like place. It was only a few years ago when the roads and streets were obstructed by all sorts of livestock from a drove of cattle to pigs and geese. Let us try to keep the sidewalks, where they belong and save their necks for something better than the wheels of an automobile. Sincerely yours in the cause of law and order.

GEORGINA SEYMOUR KENT.

### SEA-WALL COMPLAINT.

Contractors Declare They Are Trying to Live up to the Specifications.

Some little time ago the Trades and Labor Council of the city of Victoria complained to the city council that the contract and specifications in regard to the construction of the Ross Bay sea wall were not being adhered to by the contractors, the Westholme Lumber Company, and a committee was appointed to investigate the matter. It was complained that the men working there had to work at all hours, and that laborers were employed on carpenter's work. The committee went into the matter with the company and as a result of the consultation a report was submitted to the council last night which stated that the contractors were endeavoring to live up to the contract to the best of their judgment and belief. They were desirous of paying the current rate of wages in all the departments of their labor, and that the night work referred to by the complainants is about over and that therefore the work would be continuous in future instead of split up into periods. A copy of the report has been sent to the Trades and Labor Council.

### AT CLOVER POINT RANGES.

Scores Made by Riflemen of the Fifth on Saturday.

Although conditions were distinctly good, the scoring at Clover Point range on Saturday afternoon was quite of an ordinary character, as being top in the first class.

The second class men did very well indeed, Corp. Stuckey qualifying for promotion to first, and four others getting one "leg" in by making 88 and over.

Following are the leading scores, and spoon winners:

First Class.				
	200	500	600	Tl.
Sergt. Carr	29	32	32	93
Sergt. A. Richardson	31	32	32	95
C.Q.M.S. Hatcher	30	30	34	94
C.Q.M.S. Winsby	30	32	32	94
Sergt. Birch	32	31	30	93
Sergt. F. Richardson	32	30	30	92
LT. A. E. Robertson	30	34	28	92
Mr. Edmonds	31	30	29	90
Mr. Stevens	28	29	28	85
Corp. Stuckey	28	29	28	85
Sergt. de Carteret	28	27	32	87
C.S.M. Caven	30	28	27	85
Mr. Heybourne	29	33	23	85

Second Class.				
	200	500	600	Tl.

Capt. McIntosh ..... 25 27 26 78

\*Spoon winners.  
A meeting of the committee will be held at the drill hall on Tuesday next at 8.30 p.m.

### AMERICAN SERIES ENDS.

Chicago, Ill., Oct. 9.—With the final games played on the Eastern fields Saturday the closing games of the 1911 American League season were played in the west yesterday. By virtue of his victory over Cleveland yesterday, Chicago finished the season in fourth place, a fraction ahead of Boston. Cleveland was third, Boston fifth, New York sixth, Washington seventh and St. Louis last.

President B. B. Johnson of the American League issued the following statement:

"The pennant race itself naturally developed a few surprises and disappointments. The victory of Philadelphia under Manager Mack was unexpected. Mack built up a team for this race that even exceeded his 1910 champions, but nevertheless the defense of Detroit, the greater part of the season made the race far from a one-sided affair. A victory such as I am anticipating for Philadelphia in the world's series will be a crowning achievement for the American League."

### MANN CUP FOR VANCOUVER.

Toronto, Ont., Oct. 9.—The Vancouverers held the Mann Cup, with the westerners leading by five goals, the net result of last Saturday's game. The Young Torontos and Vancouver met Saturday afternoon in the second and final struggle for the cup, when Vancouver won by 2 to 1. McKerrow was referee.

The Globe says: "It is not exactly correct to say that the Amateur Athletic Union disqualified the Vancouver lacrosse team for playing for the Mann Cup. The teams and officials disqualified themselves. The Union only put the fact on record."

### SCOUTS FIELD DAY.

Field day by the University school cadet battalion, celebrated in honor of the third anniversary of the laying of the foundation stone of the school, was a great success. A sham battle was vigorously fought, and when the cease fire was sounded the umpires declared the battle a draw. A bountiful meal, enjoyed by the hungry fighters, was prepared by the roadside and partaken of by the 100 boys and their three umpires. That the boys are well disciplined and show coolness and proper attention to their superiors while in battle, was vouched for by the umpires. The scouting was well done, and gave for the timidity of youth, fittingly enough for old-timers.

### THINKING THEMES

BY DR. FRANK CRANE.

The reason we cannot get along with our children is because they know us too well. It is more than ordinary human nature, to be lived with every day. One has to be very great and wise and noble to spend ten hours a day with any human being, and still love him. The baffling complexity of the soul is too much for most of us; it confuses us, irritates us.

Of course, sickly and anemic children are not much bother; they are quite simple. But vigorous, growing, intense children come upon us like perpetually new problems to be solved, new enigmas to be guessed, new knots to untangle. And we are not great enough for it.

I know of no more striking proof of the superiority of woman over man, in real resources of character, than the fact that she manages tolerably well with a house full of little ones and usually retains their affection. They would drive almost any man mad. The cutting edge of the difficulty is that children make such extreme demands upon our moral nature. It would not be so hard if we could appear on the scene, tell them to be good, and go away; but the trouble is when one has to stay with them; then there is nothing for it but to be Good ourselves, which, you will admit, is not easy. And then, how they call upon our powers of self-control, how they demand of us almost superhuman strength of will, how they pull the nerve of patience! And how also do they reveal to us our ignorance! A child does not want to know anything, he wants to know everything.

I do not wonder that small, selfish, pleasure loving souls, who shrink from the struggle involved in nobleness, and buy ease at any price, I do not wonder that such people want no children.

### POTTER CLAIMS COMPENSATION.

Will Take Action Against City if \$500 Is Not Forthcoming.

Thomas Potter, owner of the Lion saloon, the site of which was at one time on the eve of purchase by the city for a police academy, but has since been abandoned in favor of a location on the water front, has lodged a claim for \$500 against the city as compensation for losses caused by the delay in his building operations caused by the decision of the city. When the saloon site was first considered Mr. Potter's intention to build a hotel there was known. In fact, the building permit for the same was held up for a considerable time while the negotiations for a site were being conducted, although it was admitted that there was no possible complaint against the granting of the permit. In the event of the claim not being met Mr. Potter will take legal action to recover his losses. It is understood that the city intends fighting the case.

### GERMAN WINS.

Kansas City, Oct. 9.—The balloon Berlin II, carrying the flag of Germany, won the international balloon race for the James Gordon Bennett cup. The Berlin II landed in the wilderness near Holcomb, Wis., at 8 o'clock Saturday morning, thereby traveling 75 miles farther than any of its competitors in the race. This is the last of the contestants to land.

The Condor, the French balloon, which landed Friday night near Mingo, Iowa, reported yesterday that it had been carried out over Lake Michigan and then driven back to land.

The Million Population Club balloon which escaped from Pilot Berry, after landing at Mason City, Iowa, Friday night, was found in a swamp two miles east of Chillicothe, Ills., according to a dispatch from the finder to the Associated Press.

## Get In Touch With Fit-Reform Styles

Keep pace with the leaders. Find out what Fit-Reform is turning out in Suits and Overcoats. Then you will know what is right and proper for fall wear.

Fit-Reform styles are the correct, distinctive, exclusive styles. They are the popular effects, that jump into favor as soon as introduced.

Those who get in touch with Fit-Reform certainly buy to better advantage—because they know what is new and correct, and know where to go to get it.

## BISHOP PERRIN SAYS FAREWELL

(Continued from page 1.)

very days and months are changed, the week is lengthened from seven days to ten, and away with all this order of king, and bishop, and priest, and a harlot is placed upon the altar of Notre Dame, to represent the Goddess of reason, and the end is bloodshed and tyranny most awful. This is the excess of conservatism, and the excess of progress. I want to turn to another nation from which I feel we can learn lessons. It is to China. China through all these centuries has been the very embodiment of conservatism. Do you realize that the study of every Chinese man, woman and child has been confined to the writings of Confucius, do you realize that age after age there has been no change, and yet to-day a nation of 400,000,000 people is able to support itself, that they have so grown and so developed that they are one quarter of the whole of the human race, that one man out of every four on the face of the globe to-day is a Chinaman. The conservatism which is shown in the intense respect of child to parent. General Gordon used to say the fifth commandment has been fulfilled in China, there they honor their fathers and mothers, and have possessed the land, and now the progress is beginning, upon what lines we do not fully know, nor understand, as the Chinese mind is so expressive and marvellous.

To-day, the bishop went on, they were not only studying the Confucius classics, but were also studying western literature, and were able to enter into competition with those whose learning had been wholly on western lines. He believed that China was determined to stop the opium traffic, and the opium sin. He did not agree with the men who saw in it only a miserable scheme to get the better of the traders in India. "I think that China is in earnest," he continued, "in this programme." It was as Napoleon said years ago, none knew what the result would be when they awoke the giant from his sleep.

To come at once home, what about Vancouver, British Columbia. Victoria is a conservative city, of course he did not mean the political use of the word, but the men who first came out here and founded this city, the pioneers and those who followed, they distinctly took a conservative line, and after all there was a good side to the conservative tendency of a city. "But now comes the time of progress," the preacher proceeded, "and there is a danger lest that progress be too fast, lest by adopting a miserable system of bogus advertising, and by concealing the truth, people, with a desire it may be of getting rich quickly, do infinite harm to this city by the substitution of a rash progress for the true solid conservative growth. The city is bound to advance but if it be not in the direction of the whole moral and social improvement there is no real progress whatever, even if real estate be worth thousands of dollars.

His lordship gave the instance of the conviction of Chinamen in the police court last week, for having opium in their possession, or selling it in a den in Chinatown, and said that if the authorities chose to make a raid on the saloons in this city, what would they find? Would there not be enough to put us to shame for sending Chinamen to jail for selling opium. But whoever heard of attempting to bring punishment upon the real wrongdoer, the men who made others drunk. "If the laws of this city are properly carried out, and the city management is put on the highest plane and order," the preacher said, "then there will be progress. Victoria has been conservative, Victoria is progressive, in God's name, let both be in their right proportion."

Turning to the church, he pointed out that she was not a human institution but a definite society, and her orders, creeds and sacraments are unmovable, and in that she must be conservative, but at the same time the church must be progressive. In that diocese during his 18 years episcopate the church had been conservative. There had not been the very least idea in their minds of watering down and explaining away the everlasting principles of the Gospel of the Lord Jesus Christ; there had not been any attempt to merely gain in numbers, to secure adherents willing to accept the residuum which might remain after abandoning principles. "We have maintained so far as God has enabled us," the Bishop continued, "the whole counsel which he has given to the church, but there is need, there is room for progress, just as there have been those in this island, who have believed in her resources, and now that she is beginning to come into her possessions, so will the church in this place if she be true to her high calling, and so grow and progress as to increase in numbers, in power and in influence.

"Here we are still in our wooden

## INSTANTLY KILLED BY VANCOUVER CAR

Young Man, Crossing Behind Car He Left, Run Down by Another

Vancouver, Oct. 9.—Vernon Aldrich, a young man 18 years of age, was run over and instantly killed by an interurban car running between Vancouver and New Westminster shortly before 3 o'clock Saturday night. The body was frightfully mangled, the wheels of both the front and rear trucks of the car having passed over the boy's chest, literally crushing it to pieces.

According to the story told by eye-witnesses, Aldrich had alighted from a southbound Park Drive car at the corner of Fourteenth avenue and Park drive, and running behind it to cross to the other side of the street, was struck by car No. 1210 on the Westminister line, which was running into the city. He was caught by the fender of the Westminister tram and knocked off his feet. The fender failed to pick up the body, and after rolling the prostrate man over a couple of times, lifted, allowing the body to roll under the wheels. When the car was finally stopped, which was done as soon as possible, and the crew ran back to the scene of the accident, the body was lying halfway across the outside rail.

Dr. Storey, living at the corner, was immediately summoned and pronounced life to be extinct. The body was then covered with one of the flaring posters announcing the Westminister exhibition, which was torn from the side of the interurban car, and left until the arrival of the ambulance. When it came the body was removed to Messrs. Center & Hanna's undertaking parlors.

Dr. Jeffs, coroner, was notified and will hold an inquest to-day. The accident happened at the busiest hour of the evening, when the cars were crowded with passengers coming into the city and many witnessed the accident. "We have here a tragedy," said the bishop, "and we cannot but feel that it is a warning to us. We have here a tragedy, that our cathedral should have been built long ago, and we could not have built the cathedral as we want to build it. Now these times of progress have come, it will rest with this diocese whether this site, yielding to none in Canada, and almost yielding to none in the world for a site for a cathedral, be kept or not. We have the plans and there is the money in the diocese if the progress comes, and the people are willing to carry on the work but it will have to be fairly, honestly done. To build the cathedral on this site will mean a large expenditure of money in taxation and upkeep. You know how I have tried not only to build a stone cathedral, much as I should have loved its beauty, but rather spend money upon the work of the church in this diocese, in maintaining our mission fund for the supply of clergy, in spending money in sending the message of the Gospel to the whole world through our great missionary society, and to show from that congregation year by year an increasing amount of money, devoted to the work of the church in the diocese, and throughout the world. As in the nation so it is in the church, progress and conservatism are closely bound up together."

If they looked for perfection there was only one place where they could see it, in the life of Jesus Christ, and if they took almost any incident in that life, they would see how true it was. Take the incident of Jesus sitting by the well at Sychar, Jesus told her, "We know what we worship, for salvation is of the Jews"; there was conservatism, but there was also progress when He spoke of the time "when neither in this mountain nor yet in Jerusalem worship the Father." The Bishop also quoted references of Christ to John the Baptist, and of St. Paul, a Pharisee of the Pharisees, who could say, "Forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark for the prize of the high calling of God in Christ Jesus." Conservatism and progress.

Speaking of the observance of Sunday, his lordship went on, there was no doubt that when he came to the diocese, 18 years ago, people did come to church more regularly than they did to-day. It was not use shutting their eyes to facts. Amusements have come, and with it a demand for more recreation on Sundays. Recreation meant a physical rest for the body, and spiritual refreshments for the soul, and the man who worked at the office, and yet spent his Sunday like the other days in the week, did not know what true recreation meant, but was simply adding to his burden. He also deplored the frequent absence from Holy Sacrament, and admitted that the fact was undoubted that it was growing.

On that last time he should address them from that pulpit he would enter a plea on behalf of the children. What was to become of the children? Children to-day went on as they pleased, and where growing up in the schools, cleverly instructed if they pleased, but not really educated, because of no religious principles being inculcated, and it depended upon them whether the people were quick to acquiesce in the method of teaching now adopted.

"So once more, as in God's presence, and conscious of the fact that one day you and I must meet before the judgment seat of Jesus Christ, my last word to you is to be steadfast, unmovable, always abounding in the work of the Lord." He concluded by asking their prayers in the new sphere in which he was going, for himself and his family.

# Would You Like to Know How Millionaires Make Their Money?

The most successful business men the world over have made their money from careful investment, rather than reckless speculation.

There is no such thing as luck in business—if you make a bad buy at the beginning it is practically impossible to retrieve a profit.

If, however, you buy right, you will surely be able to sell at a profit—the period at which such profit will be forthcoming varies according to the condition of the market and the character of the security. For instance, at certain seasons of the year real estate in the very heart of a city is most active; then, again, at another time in the year the public prefer acreage or farm land—so is the seasons of real estate buying.

Perhaps the only form of securities which enjoy the distinction of being always in season are industrial stocks, such as shares in coal companies.

This condition of affairs is no doubt due to the fact that it is a permanent commodity, since coal is ever in demand; there is always a steady market year in and year out. The price continues much the same, varying only by a noticeable increase.

Economists measure a nation's possibilities by her coal wealth, which forms her most important natural resource.

In all Canada, British Columbia has the greatest workable coal-bearing territory, and even this is surprisingly limited in extent.

It is really appalling the rapidity with which the workable coal lands of British Columbia are being taken up by capitalists and developing companies. It has been predicted by men who are in touch with such matters that in a very short space of time it will be impossible to acquire coal land in this province at a reasonable price, which coal lands are workable at a profit.

Many of the millionaires have made their money from coal mining. They invariably take advantage of the low price of shares in coal companies at their inception, and thus buy for a few cents per share a holding which eventually becomes worth many hundreds of times the original price.

There are several coal companies in British Columbia to-day in which the shares are worth fabulous prices, yet these very same shares "went a begging" a few years ago at prices as low as ten cents per share.

Address your applications and make cheques payable to Wilbur Johnson, Trustee, 604 Broughton St., Victoria, B.C. Office open until 9 p.m. daily

The man who takes advantage of opportunity to-day as presented to him in the many investments throughout this our western heritage is in the pathway of making millions; the man who hoards his savings at three or four per cent per annum cannot hope to amass a fortune.

Just as one banker says: "Coal is gold so soon as it is delivered from the mouth of the mine into the bunker or the train or boat." It has a fixed standard price per ton. It requires no refining and no treating, nor must it go through any mechanical process to make it marketable.

A number of business men in Vancouver and Victoria are joining themselves together for the purpose of developing a large area of coal land on Graham Island.

A charter has been secured from the Provincial Government for the company—The American-Canadian Coal Company, Limited, which corporation is a limited liability concern, having Head Office in Vancouver and receiving its license of incorporation from the British Columbia government.

The public are assured of a square deal and a true and proper account of the affairs of the company.

The public now have an opportunity of acquiring an interest in The American-Canadian Coal Company at a ground floor price of twenty cents per share, which shares have a par value of one dollar each, and are issued as fully paid-up and non-assessable. This company is in identically the same position to-day as were all the great coal companies of British Columbia a few years ago.

Therefore those who buy in now at the present price of shares have the satisfaction of knowing that they are the pioneers of the company and will receive all of the profit which should naturally follow the development of the company.

The American-Canadian Coal Company enjoys an exclusive feature—the title to its property is by deed from the government, which deed or patent not only embraces all the coal rights, but surface rights which are very valuable as well as the timber necessary for mining purposes.

The property fronts on the northern shore of Graham Island, has a very exclusive water frontage, and is about 72 miles from Prince Rupert city.

Some idea of the wonderful wealth of the coal measures in the property may be gleaned from the fact that if you were to approach the property in a boat, before you could reach the shore it would be necessary for you to pass through an archipelago of coal. Large islands of coal literally rise out of the sea and confront the mariner.

In a very short while American-Canadian Coal Company shares will be worth and selling for handsome profits.

The trustee, Captain Wilbur Johnston, assures the readers of this paper that in a very few days' time the second block will be offered to the public at a price of not less than twenty-five cents per share, and in all probability thirty cents, and a subsequent block at thirty-five or forty cents.

The funds received are for development purposes.

Through the advance in price to at least twenty-five cents per share, the purchaser of twenty-five shares is assured of a profit of 25 per cent., and subsequently when the shares are selling at fifty cents, a profit of 150 per cent., which should be within ninety days' time.

A shrewd, far-seeing business man is buying a block of shares twice as large as he intends to hold permanently, and when the price of shares is fifty cents each he will sell out one-half his original holding at the increased price and be able to retain the other half free of cost to himself.

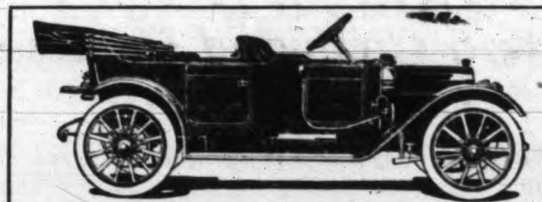

The terms are easy. No application received for less than one hundred shares, cash payment of which is \$10. The balance is payable in two monthly instalments of \$5 each. Long before the final payment is due the price should be forty or fifty cents a share.

You are guaranteed, before the sale of the shares closes out, the price will be at least seventy-five cents per share.

If you buy 1,000 shares to-day your cash payment is \$100; another payment of \$50.00 in thirty days and a second and final payment of \$50.00 in sixty days, being a total of \$200.

When the shares are selling at 40¢ each your profit is \$200. Further particulars may be had on application to the office of the Trustee

## Don't Overlook the Great Value in Chalmers Cars

We are offering the new "36" h.p. self-starting Chalmers complete in every detail for \$2,750. This car has several new features: Long stroke motor, four speed transmission, air self starter; air may also be used for pumping up tires.

## GOVERNOR UNVEILS SIMON FRASER BUST

Memorial to Great Explorer in Royal City—Judge Howay Delivers Oration

New Westminster, Oct. 9.—With sun shining gloriously down upon the scene, with hundreds of people facing him in front of the monument with bare heads, with scores of wistful little faces gazing at the glory from afar from in front of St. Ann's convent behind the monument, and surrounded by a group of the city's most distinguished men, His Honor Lieut-Governor Thomas W. Paterson unveiled the bust of Simon Fraser, the noted explorer, on Wednesday morning last.

The ceremonies were simple and dignified. Judge Howay delivered the introductory remarks. He declared that three years had elapsed since the commencement and the completion of the monument, and that the work had finally been brought to a successful conclusion was due to the efforts of A. E. White and the Native Sons. Then His Honor referred to the trip that Simon Fraser and his gallant band made down the great river.

With the brush of eloquence he wiped away the mighty bridge that spans the Fraser's flood, destroyed the industries along its banks and brought the landscape back to the primitive state it enjoyed on July 2, 1805, when Simon Fraser and his band arrived at the Indian village of Coughichew. Then he told of how the red men tried to keep Fraser from going further down the river, of how they pilfered and tried to take his canoes away from him, and how after a hard struggle the explorers obtained their canoes, and made good their escape.

His Honor considered if Fraser ever conducted up the scenes of industry that would line the great river that now bears his name. He did not know, but some of those old traders were men of broad vision. Simon Fraser lived long enough to know that his river was known as the second great gold-bearing river of America. In honor of Simon Fraser, the Hon. Mr. Justice Howay declared that the people were honoring the other Scotch pioneers and explorers of the great Northwest. He then introduced Lieut-Governor Paterson.

His Honor the Lieut-Governor declared that this was the first step in honor of an explorer in British Columbia west of the Rocky mountains. He said that we are indebted to the old explorers, for had it not been for the explorations of MacKenzie and Fraser there is no doubt that to-day this country would be part of the United States. He declared that he considered it a great honor to assist in the function, and it was a great pleasure to him to unveil the monument.

Then he stepped back and pulled the string that allowed the draped flag to fall from the green bronze bust. A great cheer rent the air, and the rugged face of Fraser looked on silent and inscrutable as fate upon the river that he discovered a century ago.

Grouped around the monument when the Lieut-Governor unveiled it were Acting Mayor J. J. Johnston, Judge Howay, Aldermen Bryson, Sheriff Armstrong, G. D. Brynner, John Hendry, A. E. White, J. J. Thompson, Rev. J. S. Henderson, Messrs. Brownson, Keith and Stuart, and scores of other well known men.

Presiding the unveiling ceremonies there was a parade from the Hotel Russell to Albert Crescent. The parade was led by the 4th and 5th regiments of Mounted Boy Scouts. Then came Infantry Boy Scouts, Cyclist Boy Scouts, and the second carriage containing Ald. Bryson, Sheriff Armstrong, John Hendry, and G. D. Brynner. Following these were scores of Native Sons on foot, the local post making a most creditable turnout in spite of the fact that the parade was held in business hours, when it was difficult or impossible for many of them to get away.

### CHILLIWACK ARMY.

Chilliwack, Oct. 9.—The matter of an armory for Chilliwack was one of the most interesting subjects discussed at a meeting of the civic fathers held here last week. It was raised by a communication from Mayor Lindsay Bethune, of the Royal Canadian Engineers, who asked the city if it would be prepared to grant a site in accordance with the customary practice.

Colonel Bouthie, of the local company, 104th Regiment, who was asked by the council to give his opinion of the proposition, suggested a close-in site, where the city already possesses a corner lot. With the adjoining lot he considered it would be an ideal location for such a building, and the various members were in agreement on that point.

From the remarks passed, the council is entirely in accord as to the desirability of granting a site, and immediate action to this end will be taken. In this connection, Colonel Bouthie stated unofficially that a second company has been authorized for Chilliwack.

### CARELESS BLASTING.

Prince Rupert, Oct. 7.—The other morning a piece of rock from a shot fired on the Camozzi contract on Second avenue and Third street struck through a window in Dr. Kerwin's house, the broken glass narrowly missing the baby. The rock hit the frame-work of the lower sill, smashing the glass. Another piece of rock nearly penetrated the roof of the G. R. Naden block, breaking through the outer boarding, crushing down on the inner ceiling and sliding off. Two days before the same people exploded about five hundred pounds of dynamite, severely shaking up the neighborhood, and complaint was made by residents to the police, who inspected the damage done by the blasts.

## DUNCAN SEEKING INCORPORATION

Thriving Capital of the Cowichan District Will Shortly Be a City

Duncan, Oct. 9.—A petition is now being circulated in connection with the matter of the incorporation of Duncan as a city municipality. It is necessary that the petition obtain the signatures of the owners of over fifty per cent of the assessed value of the property within the area to be incorporated in order that the incorporation may be sanctioned by the government.

There are a good many points on which people seem to have erroneous ideas with regard to incorporation. There is an idea that the taxation may be increased. This is not so by any means. Any increase of taxation will depend entirely on the wishes of the people themselves under the new form of government. Again, it will be necessary to have a two-third majority before the city can borrow money for improvements, so that in this respect also the people themselves will have entire control of the finances of the city.

It is hoped that everything will be in order by the end of the year, so that Duncan may elect its first mayor by the 1st of January, 1912.

### McTAVISH-CRAIG.

Victorian Marries Popular Young Prince Rupert Lady.

Prince Rupert, Oct. 7.—In the marriage of Miss Emily Mistle Craig, daughter of Mr. and Mrs. Morte Craig, to Mr. Duncan Douglas McTavish, of Victoria, Prince Rupert loses one of her most popular young ladies. Many guests attended the ceremony, which took place in St. Andrew's church, Rev. Mr. James performing the ceremony.

The bride was given away by her father, while Miss Dorothy McTavish, a sister of the groom, accompanied her as bridesmaid. Two charming little flower girls, Misses Margaret and Margaret Palmer, were also in attendance and performed their parts in perfect style.

The bride was attired in a pretty gown of white satin moire trimmed with very old duchesse lace. She wore a veil and carried a very beautiful bouquet. Her bridesmaid looked charming also in a white satin gown with moire trimmings.

Mr. McTavish was supported by Mr. E. B. Walker of this city.

After the ceremony the party repaired to the home of the bride's parents, where the wedding cake was cut and the health of the bride and groom was drunk.

After a few short speeches the guests proceeded to enjoy the evening in a social way. The store formerly occupied by J. T. McDonald on the ground floor had been artistically decorated for the occasion and was used as a ballroom. Gray's orchestra provided the music.

Mr. and Mrs. McTavish left for Victoria by the Prince Rupert, a large number being present at the wharf to see them off. The bride's going-away dress was of golden brown with white heavier hat. From the bridge of the steamship the crowd pulled off she threw her bouquet to ascertain who would be the next bride. To the disappointment of many of the young girls the bouquet landed in the hands of a married woman.

### THEFT FROM CARS

Two Young Men of Ladysmith Charged With the Offence.

Ladysmith, Oct. 7.—Last Saturday evening between the hours of 5 and 6 o'clock, three or four E. & N. cars lying on the siding and containing merchandise were broken into and a portion of the contents of one car removed. It was Monday before Officer Cassidy was notified that a theft had been committed, and that officer proceeded at once to make an investigation.

The fact that one car contained beer and whisky led him to believe that the crime had been committed by some one who wanted to get the liquor. Besides this car was the only one from which anything was missed. He made a search of the grounds adjacent to where the car had been standing, and his search was rewarded by the discovery of a keg of beer in the bush near Harrop's old landing.

He concluded that the thief or thieves would return to get more beer, so after dark he laid in wait about ten yards from where the keg had been located. The officer was there only about two hours when two young men well known in Ladysmith made their appearance and proceeded to fill the pitcher from the keg. He waited for a minute and then called on them to throw up their hands, a request which was complied with at once. One of the men inquired for his authority, and the officer disclosed his identity.

The young men were locked up, and the same evening the officer, acting on information, arrested another man, who was also taken to the police office.

The three men were brought up before Magistrates Matheson and Nicholson, but at the request of the Canadian case was adjourned to secure witnesses. One of the accused is now out on \$100 bail.

C. L. Harrison, of Victoria, is acting for the C.P.R., and his brother, V. B. Harrison, of Nanaimo, is appearing for one of the prisoners.

### CROOKS SEVEN SHIRTS.

Nelson, Oct. 9.—Wearing seven shirts, two suits of underwear and a night shirt, all stolen, in addition to his own clothes, Roy, alias J. Bates, appeared in the city police court before William Irvine, police magistrate, and was sentenced to one year at hard labor on a charge of theft of various articles including clothing, a clock, a rifle and a diamond pin from the Grand Central and the Kootenay hotels. J. Lee alias Jack Johnson, a colored man, was convicted of having stolen property in his possession and was sent down for six months' hard labor. Both pleaded guilty.

## These For Sale Advertisements Will Bring About Some Real Estate Sales To-Day

### A. H. HARMAN

1317 Broad Street.

Having occasion to make a trip to the Old Country I take this opportunity of informing my clients and others of the fact, and that I shall return on October 31, 1911.

Thanking for past favors,  
 A. H. HARMAN.

## CITY OF VICTORIA

A complete list of Local Improvement Works, authorized by By-Law, from time to time, will be found posted on the Bulletin Board at the main entrance to the City Hall.

## Poles Required

Tenders will be received by the undersigned up to 4 p.m. Friday, October 6th, 1911, for the following: 200 Cedar Poles 35 ft. long; 100 Cedar Poles 45 ft. long. To be furnished as per specifications which can be seen and had at the Purchasing Agent's office. The lowest or any tender not necessarily accepted.

WM. W. NORTHCOTT,  
 Purchasing Agent  
 City Hall, Sept. 28, 1911.

## Tenders for Water Works Material

Separate tenders, sealed and endorsed, will be received by the undersigned up to 4 p.m. on Friday, the 27th day of October, 1911, for the following: Gate valves, pig lead, lead pipe, galvanized pipe, brass goods, galvanized fittings. Specifications can be seen and had at the Purchasing Agent's office. The lowest or any tender not necessarily accepted.

WM. W. NORTHCOTT,  
 Purchasing Agent  
 City Hall, Oct. 4, 1911.

Taken belonged to W. J. Wilton and included a .22 Winchester rifle, a brown suit of clothes, a raincoat, and a pocket barometer. The next night J. Smith lost from his room at the Kootenay hotel a fancy sweater, some silk ties, a number of shirts, a diamond pin, a brass clock and some underclothing.

ADVERTISE IN THE TIMES

## SOCIAL AND PERSONAL

Mrs. Rhodes is entertaining Mrs. M.  
Smith of Sacramento, California.

Miss Lucy Little is en route to Ger-  
many to continue her musical studies.

Major and Mrs. Audain are en route  
to England and the continent for an  
extended tour.

Tuesday of last week Mrs. T. Genge  
was one of the larger entertainers be-  
ing hostess for a tea in honor of Mrs.  
Blandy.

The Misses Bodwell have resumed  
their studies at their school in To-  
ronto, their holidays being delight-  
fully spent in Victoria.

Miss Mary Crofton, who has been  
delightfully entertained by relatives  
while on a two weeks' visit to Victoria,  
has returned to her home on Spokane.

Mrs. William Umfield Gardiner re-  
sumes her "at home" day on Tuesday,  
the 10th inst., and will reserve the  
second Tuesday in each month  
throughout the season.

Mr. and Mrs. H. J. Kelsor leave this  
afternoon for Spokane. From there  
Mrs. Kelsor will go on to Portland for  
a pleasure trip. Mr. Kelsor, so well  
known in connection with the Cana-  
dian Mineral Rubber Company, is tak-  
ing the trip for business.

Miss Sara Jeanette Reilly of "Arm-  
hurst," Ann St., Esquimalt, and Mr.

## Selling Out Sale

Here You  
Save

**25%**

As is universally known, C. &  
M.'s display of Jewelry, Silver-  
ware, Clocks, Watches, etc., etc.,  
is a display that is always ad-  
mired, not only by those at home,  
but by travelers abroad.

Then imagine how many beau-  
tiful articles can be purchased  
here at 25 per cent. off all regu-  
lar prices, and on a few selected  
lines, 50 per cent. off.

You perhaps have a friend or  
relative to whom you are shortly  
making a gift—then is it not  
logical that the place to buy it is  
HERE—at "The Gift Centre?"

## The Evening Chit-Chat

By Ruth Cameron

"I think my mother ought to be  
called 'where is it lady,'" a quaint little  
boy once commented.

He was the youngest of a large fam-  
ily, and he had heard his mother so  
often appealed to in this way by the  
various members of the household that  
he had good reason for his suggestion.

I fancy there are a good many homes  
in which "the where is it lady" might  
be one of the house mother's titles.

For I have myself observed not a few  
families where the habit of appealing  
to mother to find anything which does  
not come readily to hand is a fixed one.

And a first resort is what she is fre-  
quently made. It is so much easier to  
say, "Where is so-and-so" and to throw  
the responsibility onto mother's mind,  
than to use your own brain; it is so  
much simpler to say, "I can't find  
something or other," and have mother  
come down or up and help you hunt  
than to go poking about by yourself,  
that many of us get into the habit of  
making no effort to do anything else.

"What have you done with that  
magazine I was reading last night,"  
cries father. "It's gone and I was  
right in the middle of a story." And  
mother patiently gets up and finds it  
right under father's elbow, hidden only  
by a newspaper.

"Where on earth is the tie that goes  
with my dress suit," calls big brother,  
and mother toils up the stairs and finds  
it right in his handkerchief box, where  
he left it the last time he went to a  
wedding.

"Mother, I can't find my pumps any-  
where. I'm sure Bridget did something  
with them when she swept," fulminates  
big sister. And mother leaves her  
sweeping and locates the pumps in the  
closet, hidden only by the folds of sis-  
ter's dressing gown, right where big  
sister might have found them very  
easily herself if she had only really  
tried before she called mother.

"Where is the milk bottle? How can  
I go and get the milk if you don't tell  
me where the milk bottle is?" sputters  
little brother. He has seen that milk  
bottle on the pantry shelf a dozen  
times, but, of course, mother gets up  
and gets it for him.

And all this means that that mother  
must bear all the body and brain pain  
that hunting for things means—and  
myself, I think there is nothing more  
tiring than hunting for things—which  
should be distributed over the shoul-  
ders of the whole family.

Now I believe that "I can't find it,"  
and "Where is it?" are habits that all  
children fall into unless they are  
checked.

And I think they should be checked.  
Both for mother's sake and their  
own.

A child who is taught to hunt for  
things until he finds them will have  
more self-reliance and initiative than  
the child who gets into the "Where is  
it?" habit.

A mother whose family does their  
own hunting for things instead of pil-  
ing it all on her shoulders, will have  
less care to lessen her chances of be-  
coming a happy old grandmother.

Both for mother's sake and their  
own.

Lots of city farmers make a specialty  
of sowing wild oats.

EMBROIDERY AND SATIN.

A combination of materials new this  
season is batiste embroidery and satin  
put together attractively in manner  
shown in sketch. In this costume the  
foundation was a lovely shade of pale  
rose satin and the embroidery a deep,  
rich cream. The arrangement of em-  
broidery is exceedingly pleasing, espe-  
cially on the bodice, which suggests  
the peasant blouse with a peplum of  
embroidery flouncing. This makes a  
charming gown for warm-weather  
affairs at country clubs, resort hotels,  
etc.

uses on Large Sifter-Can.

Irene Hobson and Charles Deland  
present at the Empress theatre to-day  
for the first time a new sketch en-  
titled "A Business Proposal" that is  
said to contain considerable sentiment,  
some business and personal politics, a  
very pretty woman and two talented  
stage performers.

A supporting act of much weight  
is that to be shown to-day by Elsie  
Wales and Mabelle Meredith two girls  
who will sing popular love lyrics at  
the government street show house all  
the week. Will Lechrane is a new  
performer and is known as the "Wee  
Scotch Comic." There are two more  
acts the Quinn brothers and Rosner,  
and the Bailey acrobatic trio. The  
Quinns play in a musical novelty. The  
Empresscope closes the bill.

To-day and Tuesday "The Rose of  
Kentucky" a biograph picture show-  
ing a Kentucky planter and a young  
girl he has adopted grown to woman-  
hood under his care will be shown.  
He loves her but thinks himself too  
old. He shows a fine character during  
the attack of night riders upon the  
planters' burning. "As Fate Decreed"  
depicts a young monk of the re-  
stricted life of the monastery and es-  
caping. He marries, enters business  
and is prosperous for a time, but re-  
verses come, his friends desert him  
and ultimately his child is taken away  
and he goes back to the monastery.  
"The Clown's Baby" is a story of a  
little girl left alone by her father's  
death and taken care of by a clown.  
Some wealthy people adopt her, but  
for a year she is dissatisfied and later  
joins the circus again. "Archibald the  
Hero" is a comedy showing Archie the  
tenderfoot, accidentally capturing a  
bold, bad man. Later the bad man  
escapes from jail and Archie exhibits  
a brand of fear that is new in the  
west.

A millworker named Elizabeth Berry,  
aged 59, who left Springfield to walk to  
Newport, died in the cottage hospital,  
Cupar, at 11 o'clock the same night from  
shock and burning injuries. She was  
found by the roadside near the farm of  
Hayton in an unconscious state, with the  
upper part of her clothing in flames. It  
appears she had accidentally set fire to  
her dress with the match she had been  
using to light her pipe.

## Gordon Head Waterfront

## THE DANCE MAN

Sam Bernard.

Sam Bernard, without doubt one of the really funny men of the American stage, will be seen in this city for the first time at the Victoria theatre Tuesday, October 10, in the Shubert production of "He Came From Milwaukee," the book of which comes from Mark Swan and Edgar Smith, the lyrics from Edward Madden, with music composed by Melville Ellis, Ben M. Jerome and Louis Hirsch. Mr. Bernard, with his nimble tongue, has formulated no truce with the English language, as it affords him opportunity to attack it with a Teutonic daring which has helped to make his name famous as a dialect comedian of the first quality.

A short resume of the story shows that in "He Came From Milwaukee" Mr. Bernard assumes the role of a brewer from that city travelling in France, where he strikes up a friendship with the Duke of Zurich, a personable young monarch who is pestered on the one hand by revolutionists and on the other by a matchmaking American mother. The brewer, by inducing the duke to assume the identity of his travelling companion. Thus it will be seen that up to this point the plot reveals a coherent story, which, however, well in the working-out, the ludicrous situations, which are bound to follow, the quest for the elusive American girl, who spurns him, and later with the revolutionists, who evolve him into a duel and finally compel him to defend himself at a drunken court-martial. In the meantime, the young woman contracts a marriage of convenience with the supposed travelling companion, thus falling into the lap of circumstances and works out her destiny to the satisfaction of all concerned.

Mr. Bernard's supporting company includes: Nella Bergon, Alice Gordon, Anna Wheaton, Louise Mink, John J. Cain, George Baldwin, Billy Gaston, Henry Norman, Charles R. Burrows and others.

"In Old Kentucky." In these days of good, bad and indifferent musical plays and dramas treating of high finance, international marriages and other 20th century topics, a sweet, wholesome play like "In Old Kentucky," which comes to the Victoria theatre on Wednesday, October 11, is an agreeable and welcome visitor. Its power to attract has never waned through changing seasons, and it remains to-day one of the biggest drawing-cards of the theatrical world.

Its success in recent years has been, if anything, greater than the fame it achieved in the early years of its career. The story breathes the fragrance of the green slopes of Kentucky. It exudes the aroma of corn, whisky and depicts the inherent love of horseflesh possessed by the average person of the world over. There is a wholesomeness, a touch of rugged, homely sentiment and an absence of drawing-room conventionalities that appeals to the most jaded playgoer.

The drama, a simple one with no clap-trap effects, is unfolded in a direct and telling manner. Its characters are to be real, living personages. They find a place in one's memory. The Colonel, Madge (the mountain heroine), Aunt Lethe, the villain, the moon-shiner, old Uncle Neb and the pickaninies—all are recalled with genuine pleasure. Miss Mildred Johnson will appear in the role of the brave mountain girl Madge, her third year with "In Old Kentucky." A splendid new scenic production will be provided for this season's presentations. The pickaninny brass band will form, as usual an attractive feature of the offering.

"The Girl in the Taxi," which comes to the Victoria theatre for an engagement of one night, Thursday, October 12, was first produced in Paris under the title "Le Fils a Papa," which might be rendered "Like Father Like Son." The piece created one of the greatest sensations the French metropolis has ever known and ran for more than 1,000 nights. It was originally written by Anthony Mars, that past master in the art of intrigue. The American adaptation was made by Stanislaus Stange, and holds the record for the long runs of any similar play in New York, Chicago and Boston. The locale has been changed from Paris to New York, but the play retains all the humor and atmosphere of midnight life which made it so popular abroad.

Mars, the author, has long been known here and in Europe for his clever and amusing entertainments. He was only twenty-one when, in connection with Blisset, he wrote "Surprises of Divorce," and although he will not reach the half-century for another twelve months, he has to his credit an average of a play a year.

In the author's opinion, "The Girl in the Taxi" is by far the cleverest and

funniest piece credited to his facile pen. It contains more wit and humor, more interesting and amusing characters, and more ludicrous, yet possible, complications and embarrassments than half a dozen of his other plays combined.

EAMES and GOGORZA.

The first of the season's musical events under the auspices of the Victoria Ladies' Musical Club will be the appearance on Friday night next, at the Victoria theatre, of Madame Eames and Emilio de Gogorza.

Madame Eames, the great operatic prima donna, is a woman of extraordinary beauty and distinction. Her artistic career has been one of exceptional interest, and she has numbered among her friends many of the great personages of the world. Among the incidents of her life in which she takes especial pride are the occasions on which she was called to sing at Windsor Castle and received the favor of Queen Victoria, who took a deep personal interest in the young singer, and led the applause herself. Her gift to the singer the last time she appeared at Windsor was particularly handsome—a golden angel with diamond wings, girdle and crown, standing on a diamond, and holding a scroll engraved with "Victoria, R.I." On this evening Madame Eames sang the last act of "Romeo and Juliette" with Selma Edwards. It was also a warm personal friend of the artist.

Madame Eames and Emilio de Gogorza opened their tour in the Northwest, coming straight across the continent after their arrival from Paris, and on Friday next—before the musical will have the opportunity of hearing their choice programme of arias and ballads, interspersed with some of the most famous duets from grand opera.

### NATIVE TREACHERY.

British Nigerian Commissioner Shot While on Game Trip.

Details have been received of the treacherous murder last month of Mr. H. P. James, a British district commissioner in Nigeria, and his party, while travelling among the little known creeks of the Niger delta. Mr. James, who is described by the acting governor of Southern Nigeria as a most energetic, capable and promising officer, was only 29 years of age, and on the conclusion of the expedition on which he was murdered, was returning to England. He had done excellent work by getting into touch with the native people, by whom he was killed, a tribe living in inaccessible and rarely visited creeks, and it was in the further performance of this duty that he met his death.

As soon as the report of the murder reached headquarters a force of troops under Captain H. L. Human was dispatched by the government to hunt for the murderer, who has unique knowledge of the ways of the natives. The scene of the disaster was sent to Forcados. The country where the attack was made is on the boundary line between the Brass and Forcados districts of Southern Nigeria, and in view of its situation in the midst of a network of creeks, presents great difficulty to military operations; and up to the present no news has been received that the punitive expedition has arrested the murderers.

In the bush (says Reuter) they found the body of Mr. James, and also the remains of three of his native companions. Examination showed that happily none of the bodies had been mutilated and that the commissioner himself must have been killed instantaneously, as the base of the skull had been shot away. Another bullet had also gone through the thigh. The remains were taken to Forcados for burial.

Accounts received from the survivors of the expedition show that Mr. James, who was visiting the southern border of the Forcados district, left Forcados on August 2 in a steamer towed by a steam launch, and that he was accompanied by four policemen and 20 beach boys. On August 8 the district commissioner, accompanied by three armed police, two native chiefs, an interpreter and the beach boys left Ekiermo for Lalagbene, where the party spent the night. Early next morning Mr. James and his companions started for a town called Kuno, and on arrival at this place, which is on the waterway, asked the headman to accompany him to the next town, Adagababiri. The headman, without giving any reason, refused. Accordingly, in the afternoon, Mr. James with six boys and two police, modified by the fact that in another canoe, a few minutes the canoes came alongside Adagababiri, and a number of armed natives were seen to come out from behind their houses. The interpreter stood up in the canoe signalling to the people not to shoot, but without the least warning they opened fire at about 25 yards range. One of the police was first hit and fell into the canoe injured, and then one of the beach boys was shot and fell overboard.

"The district commissioner," says the interpreter in his account, "was next hit on the right ear. He fell on me, and I tried to support him, when another shot struck him on the right side, and he fell off the canoe into the water. I also fell into the creek and swam under water, and as I came up to the surface for breath the natives fired at me. By this time the canoe was empty."

The native murderers afterwards searched for the bodies.

### REVOLUTION IN DANCING.

Some interesting demonstrations were given in London on August 4 in connection with the annual congress of the Imperial Society of Dance Teachers. According to Mr. Cecil Taylor of Leeds, the president of the association, they herald a ball-room revolution. The large number of foreign and American visitors at the Coronation had, he says, completely revolutionized drawing-room dancing in England, and even those who were experts in the old style would need to take lessons in the newer development to keep themselves up to date. "The Boston" and the one-step dance would be "the rage" during the coming season; but "The Boston"

Notice is hereby given that under and pursuant to the Revised Statutes of Canada, 1906, Chapter 115, Robert Ward & Company, Limited Liability will apply to the Governor-General Council for approval of the plan and site for the erection of a Wood Wharf in front of Lot 1299, Block 4 Beckley Farm Subdivision, City of Victoria.

A plan of the said proposed wharf and a description by metes and bounds of the proposed site of same have been deposited with the Minister of Public Works at Ottawa, and duplicate thereof have been deposited in the Office of the Registrar of Deeds for the City of Victoria, the same being the Land Registry Office at Victoria.

Dated at Victoria, B. C. this 4 day of September, 1911.

Solicitor for Robert Ward & Company, Ltd. Ly. Applicant.

## NA-DRU-CO Tasteless Cod Liver Oil Compound

There is no question as to the very high value of Cod Liver Oil, properly prepared and made digestible, as a "builder-up" for convalescents or those who are run-down.

Na-Dru-Co Tasteless Compound contains the valuable properties of the Cod Liver Oil without its disagreeable flavor. In fact, this preparation is decidedly pleasant to the taste. With Extract of Malt, Extract of Wild Cherry, and Hypophosphites of Lime, Soda, Potassium, Manganese and Iron added, it makes a combination that puts an edge on the appetite—aids digestion—invigorates the nerves—relieves and helps to cure affections of the throat and lungs—and generally builds up strength and restores health.

For puny, delicate children there is probably no better "builder-up" than Na-Dru-Co Tasteless Cod Liver Oil Compound.

**National Drug and Chemical Co. OF CANADA LIMITED.**

FOR EVERY AILMENT THERE'S A NA-DRU-CO SPECIFIC BEARING THIS TRADE MARK. SEE THAT YOU GET IT

## USE OF TOBACCO BY CHAIN-SMOKERS

Difference Between Habits of British and American Users of Weed

I take up a comparison suggested by Mr. Edison's views concerning the difference between the Englishman and the American as a smoker. Here I think the Englishman is much more rational and self-controlled than the American, writes T. P. O'Connor in an English exchange.

I understand, from his own account, that Mr. Edison is what you call in your country a "chain smoker." I never saw an Englishman who was a "chain smoker"—not one. I have known several who smoked a "good deal," but never one who lit a cigar from another and then went on continuously for hours. The tobacco habit, which helped to kill President McKinley, is not a disease known much in England, except among the Jews—especially those of German origin, who have an excessive desire for smoking.

I don't suppose, though, the time ever existed in America when smoking was regarded with horror, but I remember the time well in Ireland when a young man who began smoking was regarded as taking the first step toward the ruin of his body and soul.

The pipe and the beard came in together in England, and they are both the result of the hardships imposed upon the British officer and soldier by the terrible winter campaign in the south of Russia. In the old House of Commons every man was clean shaven except the soldiers. To wear a moustache was to announce to the world in those days that you belonged to the army.

Daniel O'Connell had a fierce opponent—an Orangeman, called Col. Sibthorpe. One day it occurred to Sibthorpe to cut off his moustache. O'Connell retorted to an attack by Sibthorpe by pretending not to recognize him now that he had taken down his "sign-board." And similarly there were probably few men in the old House who ever touched tobacco.

There survived to my day some of the old parliamentarians who never would touch a cigar. Gladstone was known to have smoked only once in his life, and that was when King Edward (then Prince of Wales) was dining with him. And Gladstone then made a pretense of smoking a cigarette; it was a polite way of telling the prince, who loved tobacco, that he was free to enjoy himself.

Tobacco was one of the things that helped to kill the late king, but nevertheless it should be remembered in compensation that it was his introduction of the cigar immediately after dinner that helped to redeem Englishmen from the after-dinner drinking habit. Before his day, the guests used to remain drinking for a long time after the ladies had retired. The Prince of Wales, lighting up the moment dinner was over, broke down the habit, and in that way, arrested greatly the huge consumption of port which then used to follow after eating was over. This reform which the late king helped to make, extended far and wide, and the army now has become intensely sober. In one of the guards' clubs in London barley water used to be supplied gratis, but the demand for it became so great among these modern guardsmen that now barley water is charged for.

Lord Salisbury is shared Mr. Gladstone's dislike of tobacco. There was not, I believe, till his dying day a smoker in the House of Commons.

In the case of Hawarden Castle there was never a smoker till Herbert Gladstone came of age, and he, being an inveterate smoker and a modern young man, managed to rig up a small smoking room in some remote part of his father's house.

Frederick Harrison, one of our greatest men of letters, to-day preaches against tobacco as one of the greatest curses of society. One day, some months ago, I entered a carriage in a railway train, in which sat the great essayist. He asked me anxiously, before I entered, whether I smoked, and was not happy till I informed him that smoking was not among my vices.

John Bright, on the other hand, was all his life a determined smoker. He usually smoked a big meerschaum pipe, but he also loved a cigar. When he was in the House of Commons you seldom found him in the chamber itself. For years before his death he had that curious nervous horror of speaking which overcomes even men of great oratorical ability after a certain time of life.

Once, after his fierce fight against the Crimean War, when he was mobbed in several towns, Bright was, for a while, threatened with softening of the brain, and he never, I believe, got over the injury to his nervous system, although he did make many of his greatest speeches after that epoch.

He used to say that, when he was tempted to say that, when he was frightened by the thought that he would fall down the moment he got on his legs—a not uncommon terror with men who have to do an excessive amount of speaking. Many old electioneers have told me of the same terror, and it is a room which I myself have suffered when long months of campaigning have brought me down to nervous weakness.

Bright was naturally a man to love smoking. He was a lethargic man, never was capable of drudgery, and he used often to say that the one ambition of his life was a passionate desire to do nothing. He never read a bill through and never mastered the details of anything.

Thus he was a failure as a minister and thus, also, he was the greatest orator of modern times in England—for it added to his effectiveness, especially as a platform orator, that he drew all his pictures in simple, broad lines, easily understood by the people. To-day the majority of politicians are smokers, and often political teetotalers compensate themselves for their abstention from alcohol by extra devotion to tobacco. Lloyd-Jones is a great smoker, as is Winston Churchill, and the one man who smokes bigger cigars than Mr. Asquith is Lord Rosebery.

## COMMITTED FOR TRIAL

Agitator Belonging to I. W. W. Is Jailed At Kamloops.

Kamloops, Oct. 9.—Joseph Biscay, an official of the Industrial Workers of the World, was committed for trial here Friday on a charge of carrying concealed weapons.

He was arrested at Savona on the complaint of Mr. Woodbury, a Canadian Northern boss, who complained that Biscay was inciting his men to strike and refused to leave the premises when ordered to do so.

Biscay, it is said, resisted arrest and attempted to reach an automatic revolver in his telescope grip. He was overpowered and arrested and his grip, on being searched, was found to contain a quantity of literature of the Industrial Workers of the World and posters similar to those posted in all the camps.

Witnesses stated that the prisoner, in his speeches had told of occasions on which dynamite had been placed in steam shovels when workmen desired to secure their rights.

C. N. R. officials say Biscay has been doing his best to work up a general strike in the construction camps.

## NO REASON FOR DOUBT.

A Statement of Facts Backed by a Strong Guarantee.

We guarantee complete relief to all sufferers from constipation, or, in every case where we fail, we will supply the medicine free.

Reckall Ordinaries are a gentle, effective, dependable, and safe bowel regulator, strengthen, and tonic. They aim to re-establish a nature's functions in a quiet, easy way. They do not cause inconvenience, griping, or nausea. They are so pleasant to take and work so rapidly that they may be taken by any one at any time. ## OBITUARY RECORD

Another of Victoria's old-timers passed away in the person of Harry T. Cole, a resident of this city since 1887, who died at his residence 322 Dallas road at about 7 p.m. yesterday. The deceased had endured cheerfully the many vicissitudes falling to the lot of the early settler in British Columbia, and his many good qualities had made for him a legion of friends. Up to recent years he was the proprietor of the Pritchard House, a prosperous Yates street hostelry. The name was changed when Mr. Cole retired from the business. He was an Englishman and was born in Lutterworth, Leicestershire, 29 years ago. A wife, seven children, the youngest of whom is 3 and the eldest 19, residing here; four brothers and two sisters living in the Old Country survive. Up to Thursday last the deceased appeared to be in his usual good health, but on that day he was prostrated by pneumonia and sank rapidly until death occurred. Mr. Cole was a Past Chancellor of the Knights of Pythias, under whose auspices the funeral will take place from the family residence at 2 p.m. on Thursday.

The funeral of the late Neil Grant took place from the Hanna & Thomson chapel, Pandora avenue, this afternoon at 3 o'clock. Services were conducted by the Rev. H. A. Carson. Interment was made in the Ross Bay cemetery.

The funeral of the late George Smith, who committed suicide on Saturday afternoon, has been arranged to take place from the Hanna & Thomson chapel to-morrow afternoon. Services will be conducted by the Rev. Dr. Campbell.

At the funeral of the late Dr. Frank Hall, Presbyterian services were conducted at the graveside by Brother W. T. Ferris, Chancellor of the Victoria Association of Ministers, assisted by Vice-Chancellor, Rev. J. L. Groves. The hon. pall-bearers were: Drs. O. M. Jones, R. L. Fraser, E. C. Hart, D. B. Holden, J. D. Helmeck and G. L. Milne. The active pall-bearers were: J. A. Metham and J. C. McDonald, representing the Knights of Pythias; George Florence and C. A. Stewart, representing the Fraternal Order of Eagles; and G. Smith and A. T. Walker, representing the Ancient Order of Foresters.

Mrs. Jane Gribble, a resident of Victoria for the past 27 years, passed away at the family home, 128 Pandora avenue, Saturday morning. She was born in Cleveport, Cornwall, England, in 1836. At the age of ten years she, with her parents, came to Michigan, U. S. A. On January 3, 1891, she came to Victoria with her two brothers, Thomas and the late John Gindray Jennings, on the steamer Pacific, where she has resided ever since. She took a deep interest in church work, being a life-

long member of the Methodist church. She is survived by an aged husband, Mr. Henry Gribble, a daughter, Miss Annie E. Gribble, a son, J. E. Gribble, two grandchildren, Wilfred J. Morley and Mrs. C. W. Newbury, also three great-grandchildren. The funeral will take place from the family residence at 2:30 Tuesday afternoon. Rev. T. E. Holling officiating. Interment in Ross Bay cemetery.

The funeral of the late Irving Arthur Lemm took place from the family residence, 433 Cook street, this afternoon at 2:30 o'clock. There was a large attendance of friends and a multitude of beautiful floral offerings. Services were conducted by Rev. W. Leslie Clay. Interment was made in Ross Bay cemetery.

## EXPLOSION KILLS TWO AND WOUNDS TWO MORE

(Continued from page 1.)

glider and two men, having rowed over to Parson's bridge, and then walked to the scene of the accident.

The medical men ordered the removal of the others to the hospital, and did not wait for Salvator, recognizing he was beyond human aid. The cut where the accident happened was not regarded as at all dangerous, and the same men had negotiated a much more difficult piece of work a few weeks ago. Muzzillo and Magara have been longer in the country than their compatriots, one having been here from childhood, and of course speaks English, but the others are native-born Italians, expressing themselves with great difficulty, yet withal good workmen. This is the first serious accident which has occurred under circumstances of the character in the neighborhood, and the details surrounding it will not be cleared up till some of the men recover sufficiently to give an intelligent account of the occurrence.

The details of the injuries of the five men, who are making fair progress in St. Joseph's hospital, are as follows: Leonardo Crusiano, bruised on the back of the head, not serious. Antonio Magara, injury to the back, a slight wound, and bruised arm. Giovanni Muzzillo, most seriously injured, three ribs fractured, cut on the neck, and one on the lips, bruises on both arms.

Carmino Rucci, bones of hand dislocated, slight wound over one eye, not serious. Giuseppe Calligone, one fractured rib, and a slight wound over the eye. No serious results are anticipated from the injuries, so far as a superficial examination could reveal by the medical staff of the hospital this morning, but they will require careful attention in the institution.

Owing to the meeting being held in connection with the Sunday school convention at the Metropolitan Methodist church, there will be no rehearsal for the orchestra held this week, but on the following Tuesday a full attendance of all the members is requested, as preparations are to be made for a concert which will be given on the 14th of November.

## EULOGY ON LATE DR. FRANK HALL

Dr. Ernest Hall, in Funeral Address, Tells of Late Physician's Fine Qualities

At the Metropolitan Methodist church on Saturday afternoon, on the occasion of the funeral of the late Dr. Frank Hall, a very beautifully worded address was made by Dr. Ernest Hall which was very expressive of the late physician's many sterling qualities and of the wide-spread grief caused by his death. He said:

"Friend after friend departs Who hath not lost a friend, There is no union here of hearts That finds not here an end."

We have assembled this afternoon to pay our last tribute of respect to a man whose life was a study in the thought and life of this community. Few citizens have enjoyed the popularity and respect so deservedly held by our late brother. A sorrowing audience attests this sentiment, and bids farewell to him, who for more than the quarter of a century gave his life for theirs. The passing of a soul is always a matter of solemn thought, but when the grave opens for a comrade taken away in the prime of life, in the bluish of manhood, it calls us to consider the value of time, the uncertainty of our tenure, and the certainty of the hour that we think not.

That awaits us all. Before me in this case lies all that is mortal, all that remains of one who in the presence of distress, refused to consider his own comfort, all that remains? No; long after this poor body will have been reduced to a mere handful of earth, what will remain in the hearts and memory of thousands of those whose pains he has soothed, and whose way through life he has made easier, the grateful remembrance of one who was always willing at the call of pain, not refused the cry of the sufferer. Knowing him as I have, for twenty years, and understanding him, possibly when others failed to comprehend, and having been intimately associated with him professionally, I am in a position to speak of the true worth of one to whom I looked in time of need, who not infrequently saved my bedside, and who was a faithful attendant upon my own family. Being possessed of a remarkably striking personality, self-reliant, assertive, skilful, with intuitive perception of a high order, he achieved, in spite of early disadvantages, a position reached by but a small proportion of the profession.

I have always considered Dr. Frank as we familiarly called him, naturally one of the brightest minds, and one of the most gifted of the medical profession in Western Canada. His extreme sympathy for the suffering, and great consideration for the poor, characterized his activities to an extent that frequently overtaxed his powers. The struggling artisan, the lowly and the unfortunate, have had no other such friend, and although his clientele included many of the wealthiest citizens, his charitable acts possibly outnumbered those of all others of the profession in Victoria combined. His private munificence was without stint. There are many before me who have participated in it. Its limits will never be known until the book of Record be opened. The assistance given to the less fortunate of his relatives, his thoughtfulness and extreme kindness to his aged mother, all reveal the true man.

I remember several years ago, upon the eve of starting for Toronto, he asked me to visit his mother, giving me a handful of gold for her, saying: "Give this to my mother, it will help her to keep warm during the cold eastern winter." I called upon the old lady and delivered the gift. She received it, and with tears of thankfulness for her boy, who so often remembered her, she pressed her lips to mine as only a mother could. Between us there was a bond of close sympathy. I recalled a great soul, struggling at times against fearful odds. He had problems of his own, not known to the world. He had obstacles to surmount, and occasionally he weighed heavily. But to know as I did, was to sympathize, but his triumphs were many, his successes at times brilliant.

In his untimely death the family and friends have met with an immeasurable loss. The community mourns a faithful attendant. The profession in Victoria here assembled around his bier, look upon the dead form of him whose work was such as to recommend his memory to a place among the greater ones. He who served humanity so well, whose last act was the relief of the pains of childbirth, dying in harness, suddenly as he had wished to die, may it be said of us, when the summons comes to join the innumerable multitude, that our last act was in the service of humanity. We bow before the Master of Ceremonies in this sad hour and trust the larger hope. A life spent in the service of humanity is a life not lost but gained. If we trust the Master's words in the summing up of life and its works—if we believe that our duty to our Maker is best expressed in our duty to mankind—if he who renders service to God's poor renders service to him—if we believe that "inasmuch as ye did it to the least of these My little ones ye did it unto Me," then I think of him whose memory here we honor, to whom the poor, distressed and sick ones never appealed in vain, of him who in the face of noonday labor was called to his account, of him whose nature knew no hypocrisy, whom to know was to love and whose body we now follow to the grave, and say of my friend of twenty years, "I hope to meet my comrade face to face, when I have crossed the bar."

—We sell the best cement on earth. R. V. Winch & Co., Ltd.

A meeting of Queen City, chapter No. 5, O. E. S., will be held on Wednesday, the 11th, at 8 p.m., in the K. of P. hall, Pandora street. Sojourning Stars are cordially invited to attend.

## VANCOUVER HOLDS THE MINTO TROPHY

Beaten Saturday but Still World's Champions—Tecumseh's Spring Surprise

Vancouver, B. C., Oct. 9.—Although defeated Saturday in the final match of the series for the Minto cup, Vancouver retains the trophy, having outscored the Tecumsehs, of Toronto, on the series, 7 goals to 3. On Saturday the Indians sprung a big surprise by defeating Vancouver, 3 goals to 2, but they failed to overcome Vancouver's big lead secured in the first match a week ago.

The Eastern challengers played superior lacrosse to the champions, and deserved to win. Only the fine work of Clark, in goal for Vancouver, saved the cup holders from a worse beating. The play was clean and only a few penalties were handed out.

## NAVY LEAGUE GETS EGERIA AT AUCTION

After Brisk Bidding, Sloop-of-War is Sold for \$6,800—Goes to Vancouver

After bidding for several hours to-day, Stewart Williams, auctioneer for the Imperial authorities, announced the Vancouver branch of the Navy League as the purchasers of the sloop-of-war Egeria for \$6,800. The keenest rivalry was displayed by the bidders, and being backed by plenty of capital the Vancouver representatives were enabled to secure the ship, for which they have been dickering for some time.

At 1 o'clock this morning the sale started and there was a good attendance of shipping men from different points. The bidding commenced with the amount kept jumping up by fifty dollars until the six thousand dollar mark was reached, when several of the competitors dropped out. A representative of the Navy League, determined to buy the ship, met every rise, and at last raised it to \$6,800 and no one offered to advance on the figure.

The good old ship will be taken to the Terminal City immediately and used as a training ship.

## NOT YET SOLD

Montreal, Oct. 9.—St. James Methodist church, the largest home of Methodism in the world, has not been sold as yet, despite reports to the contrary, but it is announced that Major John T. McBride has been authorized by parties in close touch with the Canadian Northern interests to offer the sum of two millions for the property. No sale can take place without the sanction of the trustees being backed up by the approval of the Montreal conference.

A few months ago both went on record as opposed to any sale, but at that time no offer had been made. A. O. Dawson, the treasurer of the church, when interviewed last night said that the responsibility of rejecting such an offer would be a great one, especially as the Canadian Northern intended to build its station either on the church's present site, or on adjoining land if the church would not sell, and the close presence of a station would deteriorate the value of the property for church purposes. The church, including the site, cost \$385,000 and was built in 1889, when the property on which it now stands was considered to be in the country.

## WOMAN LAW STUDENT

Montreal, Oct. 9.—The distinction of being the first woman law student in this province will go to Mrs. A. Langstaff, originally of Prescott, Ont., but latterly of Montreal, and now in regular attendance at the law lectures at McGill University. Having passed the senior matriculation examination in Ontario at the exceptionally early age of 16, she experienced no difficulty in being admitted to McGill faculty of law.

The bar of the province of Quebec is not, under its present powers, authorized to admit women to the study or practice of law, and consequently Mrs. Langstaff will be obliged to have a special act passed by the provincial House.

## IMPORTERS PROTEST

Seattle, Oct. 9.—Protests of importers who believe that the local collectors have charged excess duties will be heard by a member of the board of general appraisers who will arrive from New York November 1. Among the cases to be considered is that of Morimura Brothers, importers of Oriental goods and crockery, who have been charged with undervaluation. Since the first shipments were held up at San Francisco there have been a number of other shipments detained and released at the local customs house. The valuations have been raised by Deputy Collector Ross E. Chestnut. In the last shipment of 1,000 cases which arrived on the steamer Kamakura Maru, the valuation was raised more than \$5,000. Other ports of entry have adopted similar measures.

## SATISFACTORY ORE

Nome, Alaska, Oct. 9.—The first test of ore in the custom stamp mill brought by local merchants to ascertain if quartz properties on Seward peninsula are worth developing was made Saturday, the ore running 70 to a ton. Prospectors are greatly pleased with the result of the test and believe that the quartz properties will rejuvenate the mining industry in the Nome district.

PERUVIAN LEGATION ATTACKED.  
Bogota, Colombia, Oct. 9.—On leaving the cathedral Friday night where they had attended a meeting presided over by the Archbishop of Bogota, a mob stoned the Peruvian legation and tore down the coat of arms. This is the second attack and the situation is considered grave.

## TRIAL OF FREDERICK BULLOCK COMMENCED

Criticism of Grand Jury, Says C. J. V. Spratt, Not in Very Good Taste

The trial of Frederick Bullock, who is charged with attempted extortion from C. J. V. Spratt, of the Victoria machinery depot, in April last, commenced this morning before Judge Lammiman in the county court, Bullock having elected to take a speedy trial. Two witnesses for the prosecution, C. J. V. Spratt and Andrew Bechtel, were called up to the lunch adjournment, and the cross-examination of Bechtel had not been concluded.

Hon. C. E. Pooley, K. C., who is appearing for the defence, conducted a long cross-examination of Mr. Spratt who, in answer to a question by Mr. Pooley, that Mr. Spratt and accused were mixed up together in the thing, the witness replied: "I don't put myself in the same position as Bullock."

Mr. Pooley, "Perhaps not, the grand jury has found a bill in your case." Mr. Pooley's remark caused a little amusement among the few in court. Mr. Spratt replied: "It is not very good to be criticised by the grand jury Mr. Pooley."

The evidence given by the two witnesses for the prosecution this morning was a repetition of that given by them in the preliminary hearing of the charge against Bullock in the police court. C. J. V. Spratt said Bullock had been employed as storekeeper at the Victoria Machinery Depot and had resigned in March last year. In April the company had instituted proceedings against him for theft of a roll of canvas. This charge had gone to the police court, but had been withdrawn. Bullock's lawyers had then written to secure damages for malicious prosecution asking \$500.

The witness said he had never been president of the Victoria Machinery depot but might have signed for the company. Articles of apprenticeship were put in bearing Spratt's name as president. He said he sometimes put himself forward as president and sometimes not. He had known Day slightly and had not much interest in looking into the purchases made by the purchasing department at the works.

Bullock had called on him and written a statement asking for \$150. Spratt then took the statement from the desk and Bullock did not get it again. The letter was not signed by Bullock but was in his handwriting and read that if he received \$150 no further action would be taken.

Andrew Bechtel, a shareholder in the business, told of several meetings between himself and Bullock, at which the matter of Bullock getting damages was discussed and for which consideration Bullock was willing to let the matter of the alleged stolen goods at the Victoria Machinery Depot drop. He wanted \$750, said Mr. Bechtel, and if he got it would go to Mexico.

Mr. Pooley had just commenced cross-examining the witness when the court adjourned.

J. A. Aikman is prosecuting for the crown.

## PERSONAL

A. G. Boland, of Surgeon Falls, Ont., has arrived at the Dominion for a brief visit.

W. F. H. Thompson, manager of the Manufacturers' Life Insurance Co., has moved from Fernhill, Alta., and taken up his residence at No. 203 Mary street.

Capt. J. W. Gidley has moved from 303 Mary street into his new residence 519 Craigflower road. Mrs. Gidley will not be receiving until the first of the year.

Mrs. William Winfield Gardiner, Pandora avenue, will resume her "at home" day on Tuesday, 10th inst., and will keep the second Tuesday in each month throughout the season.

C. R. Sayer, travelling secretary of the Y. M. C. A. for Western Canada, left Victoria for Calgary, where he goes to assist in a financial campaign in connection with the work there. He will return to the coast in time for the opening of the new association building at New Westminster at the end of the present month.

1229 Douglas St.

The young people of Emmanuel Baptist church are going to entertain the B. Y. P. U. of the Tabernacle to a social this evening.

A fine concert will be given in the Esquimalt Methodist church this evening at 8 o'clock in continuation of the harvest thanksgiving services which were so successful yesterday. A large number of artists are already booked, and a delightful entertainment promised. Admission free. Collection. The sale of fruit used in decorations will take place at close of concert.

Owing to the promenade concert which is being given by the Political Equality League at the Alexandra Club on the 18th inst. falling upon the date of their regular monthly meeting, the latter will be held to-morrow evening at the league rooms, 608 Yates street. As there are several matters of important business to be gone through with, it is requested that members will turn up in full force. The meeting, which is open to the public, commences at 8 o'clock and will be addressed by Mrs. Baer.

## DIED.

SMITH—Mr. George C. Smith died at his home, 821 Mason street, early on Saturday evening at the age of 28 years. The late young man was a native of Aberdeen, Scotland.

The funeral will take place from the Hanna Undertaking Parlors on Tuesday afternoon at 2 o'clock, where services will be conducted by the Rev. Dr. Campbell. Interment will be made in Ross Bay cemetery.

Turk and Italian Destroyers

Fire at Each Other—

Dead in Tripoli

Rome, Oct. 9.—A despatch from

Brindisi to the Messagero, Saturday night says the two Italian destroyers Artigliere and Fulgore, stopped an

Austrian mail steamer near Saint Jean de Medua. Commander Ricchetti went aboard the steamer, his boat carrying a white flag. On the return to the

Artigliere the white flag was blown away and Turkish soldiers opened fire from the cliffs. The boat reached the

Artigliere in safety, and the Italians returned the fire, several hundred shots being fired. The engagement lasted more than an hour.

Premier Giolitti in a speech at Turin to-day outlined the policy of the government regarding Tripoli, which seems to have the support of

most members of the chamber of deputies and a majority of the people. Signor Bissolati, leader of the Social-

ists, in the chamber, however, writes to the Secolo giving the view of the section of the Democrats and Social-

ists, differing from that of the nation at large. In his letter Signor Bissolati says:

"Now that the occupation is accomplished, it must be decided whether Tripoli will be considered conquered territory unconditionally or whether Italy is ready to compromise—stopping

the war, sparing Turkey excessive humiliations, and offering her political and material satisfaction, and thus rendering reason of the good relations between the two states possible."

Signor Bissolati expresses the opinion that it would be necessary for Italy to adopt less brutal and dangerous solution, "so as to remove the impression that violence should be used against Turkey," and that Italy should show a spontaneous conciliatory disposition, thus avoiding "such measures as may be proposed by the powers."

To-day's advices from Tripoli state that the Italian governor, Rear Admiral Borea D'Olimone, has issued a proclamation declaring the town in a state of siege.

Expel Italians.

Constantinople, Oct. 9.—The council of ministers Saturday night definitely decided to take action looking to the expulsion of all Italian residents.

The government has decided to establish a censorship on all press telegrams, particularly those dealing with military matters. Code messages will be prohibited.

The Turkish commander at Tripoli reports that the Italian bombardment destroyed numerous houses and killed many inhabitants, including several women and children.

Muslim Sentiment.

Lucknow, British India, Oct. 9.—The council of Muslims of all India has appealed for the intervention of the British government in behalf of Turkey. It has advised also a boycott of Italian goods.

LUMBER STATISTICS.

American Association Issue a Statement of Cut and Shipments.

Tacoma, Oct. 9.—The statistical department of the National Lumber Manufacturers' Association, whose headquarters are in this city, has just issued its report for August, covering the lumber cut, shipments and stock on hand at the mills reporting.

The statistical department has been at work only three months, so that the result is by no means complete for the country, but the number of mills reporting is sufficient so that fair deductions can be drawn from the report.

On an annual basis the August figures represent about one-fifth of the entire output of the United States and a much larger proportion of the ordinary structural and market woods.

The report indicates that during August the output of the mills of the country was only 3½ per cent. greater than the shipments from the mills, and as in some sections the mills are expected to pile up stock during the summer months in preparation for the winter, the report indicates that in the past demand, it seems that in the past the country was not in a normal condition has been reported.

But while the lumber producing industry as a whole seems to have been approximately adjusted to the demand, it is not true as to certain sections. The excess of shipment over cut, which brings about the result, is to be found chiefly in the south, where labor troubles have seriously interfered with the production. In Louisiana, for example, the output was 15½ per cent. below the shipments. In Alabama, Arkansas, Mississippi, Texas, Georgia and Florida, the stocks decreased in varying proportions.

On the other hand, stocks increased heavily in the Pacific Northwest, prolonging the unavoidable price conditions. The majority of the mills are selling their productions at or below cost.

FAITHLESS SAILORMAN.

Seattle, Oct. 9.—Mrs. Valentina A. Hansen, the pretty girl wife of the first mate of the steamer Charles Nelson, who came from San Francisco in search of her forgetful husband, left for home Friday in tears. First Mate Hansen's ship is now loading lumber at Mukilteo. When Mrs. Hansen charged her husband with perjury she said he became enraged and would have nothing to say to her and refused to give her money to buy a ticket back to San Francisco. Rev. William E. Kendall, chief probation officer of the juvenile court at Everett, provided the young woman with a steamship ticket and she sailed Friday. She says that she has plenty of proof in her possession to support a suit for divorce if she cares to produce it. Mrs. Hansen met her husband four years ago in San Francisco.

## COLORADO SUFFERS FROM HEAVY FLOODS

Worst Experienced in Nearly Thirty Years—The Damage in Wisconsin

Durango, Colo., Oct. 9.—Southwestern Colorado and northern New Mexico are devastated as a result of the heaviest storms and most severe floods this section has experienced since 1884.

Miles of railroad, many scattered houses and at least two towns have been flooded and temporarily abandoned, and it is reported that several lives have been lost. Details are meagre, owing to the crippled condition of telephone and telegraph services.

Reports from Ardoles, a town of 300 inhabitants, 35 miles east of here, are that practically the entire town has been destroyed and several people are reported missing.

From Farmington, N. M., comes the report that a nearby village of Navajo Indians has been swept away, and that the natives are destitute and exposed to the storm.

Bayfield and Ignacio are inundated and all residents have fled to the hills. The river is still rising. The Mancos river has overflowed, and the town of Mancos is under water. Silverton reports two feet of water in its streets, and Dolores is under three feet of water, which is rising rapidly.

Railroad traffic is suspended and officials state that it cannot be resumed for days after the river subsides. At Alamosa hundreds of volunteers are working just above the city throwing up a temporary dam along the banks of the Rio Grande to keep that river from breaking out of bounds and flooding the city.

Figuring Out the Damage.

La Crosse, Wis., Oct. 9.—Fifteen families are homeless, a property loss of \$1,200,000 has been wrought, and the city of Black River Falls is laboring under the distressing handicap of the loss of its business district as the result of the flood. This in brief, summarizes the situation in Black River Falls, disclosed at the end of an exhaustive canvass.

Leading citizens say they are now able to cope with the situation without outside assistance, although they are accepting gratefully all offers of help. A serious problem is the lack of stores and loss of stock and provisions. Only one grocery remains. Meat and groceries will have to be shipped in for the present to supply the population. In many cases lots, as well as buildings, have been destroyed, the land being carried off by the river and being irretrievable. The defective construction of the municipal power plant dam at Black River Falls is held by engineers to be partly responsible for the disaster.

Further danger at Black River Falls and vicinity is over, the waters receding there. Whatever trouble from now on the flood causes, will be at La Crosse and the villages on the low lands north, when the water reaches them. The Black and Mississippi rivers are both rising rapidly.

FRUSTRATE JAIL DELIVERY.

Danvers, N. Y., Oct. 9.—The officials of the state prison here have just discovered a tunnel excavated by convicts under the prison walls and reaching half way to a big sewer which would have afforded a convenient exit for a wholesale jail delivery. The tunnel had been three years under construction, and was still not more than half done. It was started by two lifelers. They could not make rapid progress because of the difficulty of disposing of the dirt, which they had to mix in small quantities with furnace ashes from the laundry.

One of the two was an engineer, and he had worked out by intricate calculations the exact angle at which the tunnel had been dropped to reach the sewer. After the tunnel was found a search was made of every convict in the prison. From the cells were taken two wagonloads of nondescript stuff, including stiletos, hammers, monkey-wrenches, sand bars, blackjacks, fish poles and 350 knives.

RAILWAY COMMISSIONS TO CONFER.

Ottawa, Ont., Oct. 9.—A. D. Cartwright, secretary of the railway commission, left yesterday for Washington. He has been authorized by the board to attend a special conference of secretaries of the various state commissions in the United States, to be held at Washington during the time of the national convention of railway commissioners, Oct. 19 to 25.

Apart from the special conference, arrangements have been made for the inspection of various facilities of the departments, particulars relating to their method of recording and preserving papers and of office management.

We Guarantee Our

Hot Water Bottles

We buy the best quality from the best manufacturers and they guarantee them to us.

We exchange any that might chance to prove defective in material or workmanship.

FOUNTAIN SYRINGES also under the same conditions.

## On Guard!

All over Canada—from every town and city—we have had reports of attempted deception on the part of Clothiers who cannot get the Semi-ready agency.

Semi-ready garments have earned a certain prestige by reason of their superiority—and the term "Semi-ready" has established by its goodness a secondary meaning—with people who do not know exactly.

There is but one "Semi-ready"—you can always know a Semi-ready garment by its Trade Mark, and by the guarantee certificate placed in the pocket of every real Semi-ready tailored coat.

There is naught "just as good" as Semi-ready tailoring—this you can prove to your own satisfaction by a side-by-side comparison.

CAUGHT ASSAILANT.

Centuria, Wash., Oct. 9.—The two weeks' man-hunt for John Calvin, who shot Mrs. Vivian Irving, a nurse at the Eatonville hospital, September 24, ended Friday night, when Henry Urquhart, sheriff of Lewis county, captured Calvin at the home of friends ten miles east of Toledo, Washington.

The sheriff left Chehalis in an automobile at 9 o'clock at night and returned with Calvin at an early hour Saturday morning and took a train for Tacoma. Calvin in his first flight was shot twice in the arm, but no bones were broken.

RAILWAYS MUST AGREE.

Ottawa, Ont., Oct. 9.—The board of railway commissioners has practically refused the application of the Canadian Northern Western to cross the line of the Alberta Central Railway Co. west of Red Deer, near Rocky Mountain House. At the hearing of the application, Alex. Smith, Ottawa, and J. T. Moore, Red Deer, acting for the Alberta Central Rail-

way, submitted that the applicant company had not been properly incorporated by the Alberta legislature, and even if it were properly incorporated the application, if granted, would carry with it power to take a portion of the yards of the Alberta Central, and the law was clear that a road incorporated by provincial authority could not take lands of a federal incorporated railway company. All that the board could deal with was actual crossing, which, by the Dominion General Railway Act, was declared to be for the general advantage of Canada. This latter contention was upheld and the chairman announced that the application is not to be granted unless by agreement between the two companies. The application was therefore put over without any date for a re-hearing.

Cost-room rights for New York hotels and restaurants range from \$1.50 to \$10.00, the latter figure for the Astor and Plaza.

Water thrown upon ice in the Arctic regions will shiver it just as boiling water breaks glass. This is because the ice is so much colder than water.
